Because I'm sick and tired of "Private methods" and when I buy it's nothing new, so let me start by asking if this involved any of the following:

- Gift cards?
- Paxful?
- Social media marketing/manage?
- ebay?
- amazon?
- Cash out vanilla cards?
- Dropshipping
- Shopify
- CPA, PPD, Affiliate marketing
- Doing landing pages

- Doing websites
- Building funnels
- Amazon affiliate
- Doing reviews
- Selling signatures on forums
- Writing ebook and selling on HF?
- Reselling from ebay -> amazon or any other website where you get cheap digital stuff and sell it for profit on other site
- Crpyto arbitrage, trading, landing, margin trading?

Before anyone say anything about this method..those are sold right here on HF by respected members of this community, so I guess its fine. And not just by one seller.

Thanks, I would also like to take a vouch copy. ?

He did post fake earnings to increase traffic which I wouldn't do but it will definitely get you more sales. ? Lmfao what a load of bullshit. Get the fuck out of here.

This method is a scam, like 99% of everything else here. If the method was legit, he wouldn't of needed to fake earnings in the first place. Worst part is, the retard couldn't even manage to shop the paypal proofs properly. What makes you, or anyone with above average IQ, think if he failed to do something as simple as that; that he would be capable of engineering some private method that makes " HUNDRED\$ A Day ".

Also as an observation. Your account.. Joined june 2018. Your vouch or opinion means nothing.

I can do that but first of all, I strongly suggest actually reading before posting anything. Now let us analyze my thread:

„It's never been easier to make money online“ - irrefutable

„You are guaranteed to make hundreds a day if you put time and effort into it!“ – No fixed time nor amount given = irrefutable

„The best thing is that it doesn't require additional investments“ – Method focuses mostly on making money without money = irrefutable. You can validate it only after seeing the method(s).

„Profitable Private Method“ – Self written, it is possible to profit with given method(s) = irrefutable

„Dynamic unsaturated method“ – You can validate it only after seeing the method(s).

„Contains valuable intel“ - Who defines value? For some, it has been very valuable.

Product: [\[NEW\] UNIQUE MONEYBAGS METHOD | Make HUNDRED\\$ A Day | 25% OFF | VOUCHER](#) by "Kuldar"

This eBook consists of 2 methods and 13 pages.

The overall design and grammar of this eBook gets a passing grade with limited errors and an overall easy to read structure.

The 1st method is based around you reselling certain items on any number of reselling sites. This method is more of a greyhat/blackhat type of reselling method and the other is on the legal side and is about actual selling not reselling. The first more greyhat reselling takes up 2/3 of the eBook, with a lot of sources and other things listed. You are given a good number of places where you can get the things you are to resell, and they can be easily enough sold as said on any number of reselling sites. Now both of these methods will either give you the things you are to resell/sell for free or you will need a very little investment to make money. Given this point, this is a good eBook if you have zero money to invest atm.

There is nothing too much I need to say about this eBook as it is very straight forward. You will as said resell certain items on any reselling site and make a good profit off of it. Well that is the idea anyway. I will say some of these items can get you banned on some of these reselling sites as they

could be breaking TOS of said site, but you should no matter be able to make some sales if you are competent.

You are also given some information on general advertising with social media in this eBook. Nothing in depth or anything, but still some general pointers that might point you in the right direction.

Overall, I think the quality of this eBook is acceptable, and with the \$10 price tag it's as cheap as a burger, which is nothing to complain about. Due to this very low-price tag I think the value is here without question overall. Though these methods are nothing brand new or super innovative I think it will prove useful and profitable for new members especially.

Final Thoughts

To OP I don't have much to say at all. You can iron out the grammatical errors here and there, as well as consider adding in new steps and more detail if possible. If you do this you can even consider raising the price point a little bit.

If you are looking for an eBook that can give you some profits without too much hassle and you have zero investment money then this can do the job for you.
