Thread: [What does your YT home screen look like.](#)

Mr. Robot - August 6, 2018, 12:52 am

Just went there and except for three videos it was all tuck.

Goal: Make different YT accounts and theme them with only one type of content. I have a Shrek one in the works.

aggh465ddd - August 6, 2018, 12:53 am

I literally have no idea what is gong on here

Pope - August 6, 2018, 12:57 am

But the real question is what was the removed video?

Whats cuck an tuckin' Mr Robot?

Vamure - August 6, 2018, 1:22 am

This made me uncomfortable. Who is this god-like human you're showing us.

SysAdmin - August 6, 2018, 1:55 am

Get yourself a dark theme, Mr. Robot.

But... It's better for your eyes?!

Reginald Kray - August 6, 2018, 2:56 am

It's filled with songs/WWE videos :D

Wear sunglasses I guess?
I don't like dark themes either. I prefer bright popping colors rather than dark dull ones

Pyro - August 6, 2018, 5:53 am

i'm using dark theme also, it rocks

Gem - August 6, 2018, 8:19 am

nice try mrratchet

im not showing you my yt homescreen you perv

also u should rly use the dark theme, it's best for your eyes while you're sitting at home in the dark all day

wouldn't want ur eyes to hurt, im sure they're sore enough as is with all the crying

WageWolf - August 6, 2018, 1:33 pm

Got a nice mix going, Business, Comedy, Music, ETC.

Toasties - August 6, 2018, 1:34 pm

Filled with shit about computers and what not

Oh and kids songs... I can't forget the kids songs

It's very easy on the eyes, I use the dark theme anywhere I actually can.

Zeus - August 6, 2018, 1:53 pm

I can tell you one thing bro. My homescreen dosen't look anything like yours LOOOL

DenizZ - August 6, 2018, 3:42 pm

It's all music and movie scenes related videos.

Crypto - August 6, 2018, 3:53 pm

YouTube lately keeps throwing a lot of weird shit to me in recommended, These days it's easy to get lost in the weird places of the internet on YouTube...

DenizZ - August 6, 2018, 3:56 pm

I also have a lot of children shows that my kids watch.
