Nice job! Are you using a saturated pack, or a free pack?

If that's a free pack, then those are some earnings as I don't really see anyone earning with free ones anymore.

You can make a lot of money with any pack.

Public packs are prone to getting discovered more quickly and can get you exposed quickly and ruin your view/premium count as well, hence why I'm asking.

Sigh, you don't know what you're going on about.

I have a friend who's using a very public pack and averaging 1.5k views a story, as well as baking a couple hundred a week.

It's not the pack it's the person who's using it who doesn't know what they're doing.

If your traffic is clean public packs aren't a problem. Most of my sales are to people who've never bought before.
