Thread: [Instagram Username Claim Form](#)

banjaxedgodly - August 7, 2018, 9:41 am

Hello everyone.

I am selling the Instagram Username Claim Form.

This form cannot be accessed otherwise.

- This method does not guaranteed to get the username
- Im only selling 5 accounts with full access to the form and more.
- Price would be set at \$100 for each accouht
- Pm for more details
- BTC and PayPal payment only (Paypal is for high rep users only / outside of HF)
- Im only giving 1 vouch copy to someone I can trust.
- This requires specific documents and links pertaining to your account for it to work but if you can't submit a serious request for a username then do not use the form until you are 100% ready.

In the form itself, it's mandatory to have another account for the username to be switched over too for security reasons so the username isn't floating once it's released.

Pm me if interested or if needing proof of ownership then you can also send me a message on skype.

The skype to reach me at is sar4201@hotmail.com

Serious buyers only.

Post a screenshot of the form.

Sounds like a bunch of bullshit though

John F. Kennedy - August 7, 2018, 2:00 pm

I'll take that vouch copy if you trust me

Goku - August 7, 2018, 2:03 pm

Would love a vouch copy. But this seems like the contact method which is pretty easy and saturated

Can't post it. my account isnt high enough to be able too. I put my skype up so you can send me a message then.

ps the vpn trick for the in app verification doesn't work on ios, even downloaded Instagram from the aus app store

and made a aus account from the vpn, nothing. maybe ill be able to get it to work on android

Alot of HF users know what i am talking about but no one has the access to it anymore. Haven't seen anyone else replicate or produce the form that i am talking about or the multiple other forms in the panel. Matter of fact, ive seen people ruin threads all day with actual information on how to do certain things so i wonder how come no one has came to my thread to post the way to get the form but everyone says they have it. Something is fishy about that. Its a blanket statement. People can say something like "oh that form? it doesnt work its nothing dont waste your time" yet the form they used is from 2016 and they put a ridiculously sad attempt at a request through and didnt get any results all while the updated form is here in 2018.

They've updated it. A client had received their username in 10 days due to them not processing requests over the weekend otherwise it would have been sooner. A fb representative is how you get your request processed with the most success rate.
