Paid and got added almost instantly! I applied before as a gfx artist but didn't get accepted, so I just bought a buy-in. Hoping to learn a lot of things in this group! Thanks.

Update: Got removed from the group because of a deal dispute claim. Not even waiting for a response from my end. My bad though didn't know once you have a deal dispute, you are instantly removed, even if it isn't valid. I guess normal users can remove all unity members by filing a dd to a unity member even if it's not valid ?
