Leads - August 7, 2018, 10:50 pm

Big vouch, this guy is really helpful and knows what he is doing.

BikerDude - August 8, 2018, 12:21 pm

any vouch copy available ?
thank you !

Tor - August 8, 2018, 10:28 pm

Thanks to everyone who has contacted me with regards to this method. I unfortunately will not be handing out any vouch copies due to the simple fact that I value this method too much to just be handing it around. Instead, I will be discounting the first few copies (40% off) to help bring in our first members. Expect to see REAL reviews from REAL customers very shortly!

Start profiting with IncomeSpecialist today!

So I have been using this for method for around a day now and seriously have to say that I am very impressed with how this has been going so far. I set the method up the other night and I really didn't have any issues with getting setup. Everything is written clearly and is simple to understand. Valar goes above and beyond to make sure every little question is answered which is something that I've never seen from a seller on hf, it really shows you that he believes in his method and it's very motivating to see something like that.

In terms of earning, this method has started to really pump some revenue for me which shocked me since I literally just started and wasn't expected much. I've got 3 payments today alone on full autopilot. I will continue to update this as I move forward. Big vouch for Valar and this method.

I'm very interested in buying your system, would you say that it's essentially auto pilot and will produce earnings once it's all setup or Will I have to actively monitor It? I've been browsing a bunch of the threads here about monetization techniques and honestly am not sure which one of y'all's packages to start with, but to be honest I want them all lol.

Hey thanks for your interest. The method is in fact 100% autopilot and will produce earnings for you once setup. Unfortunately a lot of the methods that members on here sell actually need several skills and requirements to profit from. This is not the case with Income Specialist. Absolutely NO requirements or skills are needed to earn and profit. If you have any more questions please don't hesitate to contact me or Valar via skype.

Hey there thanks for your interest in the method. Would be glad to answer your questions:

1. This method does not involve sending money out through any payment processor in any way.
2. You can receive payments via PP, Crypto, western union or bank transfer (Most members use PP)

Hey thanks for inquiring. The method is very simple to setup and can be done in an hour without any help. On a difficulty scale I would rate it 2/10 simply because all you're doing is following a few straightforward steps and you're ready to get earning. No creative work or guessing is involved truly making this the ultimate method.

If you have any more questions please don't hesitate to contact Valar via skype, he's currently online and will gladly answer any outstanding questions!

Here is my most honest review of this guide.

Summary: It has a little more tricks than other guides but they are the same, or similar. If I had known, I would not have bought it. I got € 0.00 and a ban on Ebay from an old account in 2011 that I had to apply the main trick of "Income Passive Method" ?

Complete Review:

After reading the main guide and the "sub guides" has tricks that are well known and others that do not. I've been applying it for 2 days: I got € 0.00 and a ban on Ebay from an old account in 2011 that I had to apply the main trick of "Income Passive Method", ok.

The other methods I think if you have bought another famous guide in the forum are the same. In fact, one of the main methods does not work anymore and that's why I was banned from ebay. (Because ebay has forbidden it).

The other methods can generate money but you will have to bet with risk a minimum of \$ 170 to obtain a benefit of \$ 40-50 \$.

I sincerely believe that this guide is not worth more than \$ 5 -10 \$ and the tricks are very very very very saturated.

As for the owner, he passed it to me on skype, he is always active but absent so if you ask him something, it will take him 1 day to answer you and if he answers you he will do it without many explanations.

I hope this review advice for novice buyers ... I do not recommend it. :(

razzerspain - August 27, 2018, 5:37 pm

After having it for a few days here's my review

This ebook is a joke, dont buy this shit

One of the methods will literally get you scammed lmao.
