Thread: [Super Lottery! 1 Byte entry with 3000+ Byte prize!](#)

Xerotic - August 9, 2018, 11:50 pm

Just started a lottery. I put in 3333 Bytes which puts the starting prize (after house cut) to ~3000 Bytes.

<https://hackforums.net/lottery.php?action=view&lotid=33>

1 Byte per ticket. 1 ticket per member. It is a fair shot for everyone with a decent prize. Who will be the lucky winner? ?

Enjoy!

This one is only 1 byte. You can afford it.

Will maximise in the final few days. ?

EDIT: I realise you can buy one ticket!

Scrat - August 10, 2018, 12:54 am

Xerotic how can I steal some of your bytes without anyone noticing?

Ravioli - August 10, 2018, 2:32 am

If I win this lotto I will upload a video of me taking a decent sized bite out of my left testicle

INB4 Xerotic wins his own lottery.

Either way, I'm in.

I set the lottery for a week so that enough people can enter.

It is cheap and everyone can only have one ticket so it is as fair as I can possibly make it. A single post and you can purchase your entry ?
