Basic Snapchat Ewhoring Guide

Your intro into how to start ewhoring on snapchat

Alright here I will Teach you the Basics of starting out on snapchat I will in Detail explain everything from what you will need to start all the way to Traffic sources to get you started & how to build a Successful snapchat account that will bring you in Decent income, ofcourse your profit will be based on your effort you put into your account.

What you need to get Started

Now there is several methods to snapchat ewhoring I will cover a few basic method's here.

To start you will need 1-2 snapchat account's, 2 accounts will only be required if you plan to sell 'Premium' to your customers. a single account if you just plan to pull all of your traffic into one account and sell from that account directly. both methods have advantages and disadvantages of there own kind.

Disclaimer A lot of people do still run two account's and don't sell premium they just use there first account to advertise there 2nd account this is a good way of cutting out timewasters also.

Having one account will obviously mean you wont have to monitor 2 separate account but leaves you open to more timewasters and can most times require more interaction with potential customers. this is still a good method for someone completely new to ewhoring.

Having 2 separate accounts allows you to have one dedicated account for all your traffic to flow to & your 2nd account can be set up as a Premium account for buyer's. this really Depends on the Pack/girl your using, be sure before you start this method you have enough pictures&videos of the girl to keep the account sustained for a long period of time. I have seen countless people doing this method with Packs with a very small amount of content leaving there buyers with nothing after X amount of day's so I only strongly only recommend this method if you have the pack to support it.

Premium Method

This means having 2 separate snapchat accounts & having buyers of your of your premium service adding your 2nd account to see the content posted to your story.

Single account method

This is when your just using a single account and selling direct to your incoming traffic. so that will be just selling them a set amount of Pictures&videos for a set price.

The Pack

This can make or break selling on snapchat you will want to find a good quality pack to use, you will want clear good quality photos you can use also having a pack with a good amount of content is a must. having a pack with only 40-50 pictures/videos wont last you long especially if you plan to setup 2 account's to sell premium but also even on a single account I would not recommend a small pack purely because once you sell that content to a buyer he may return to buy more from you and if you do not have more to supply you can lose out on important sales.

I Highly Suggest you check out the Sticked threads in this section there are several sellers of great unsaturated packs. & don't be worried to put money into buying a pack its better to spend money to make money than using a bad pack and getting no sales.

Disclaimer

Neither myself or anyone on hackfourms will responsible for you using a pack of a underage girl. yet again I highly suggest you check out the Sticked threads in this section for sellers of unsaturated pack's.

Traffic Sources

Good traffic sources is key to gaining a good audience for your snapchat, now a lot of top ewhores users myself included source and find there own personal traffic methods. but for this post I will Supply a basic list to get you started. I still highly suggest you spend some time researching your own personal methods for gaining traffic. there is plenty of untapped sources finding one is ofcourse the hard part but I do suggest you think outside the box when it comes to looking for traffic sources. I also suggest for gaining basic traffic if your on IOS or Android just search with in the app stores for 'Snap friends' app's.

[Basic Traffic list.](#)

Using Snapchat.

Now you have either your one or two accounts setup and you have choose which method you want to go ahead with & you have started to gain Traffic towards your snapchat you will need a Method to post to your story as a preview and to let your buyers know what your selling. Currently with the fall of Snapchat++ and all other 3rd party app's being banned. i will give you a simple method to upload a fake Live pic to your story only.

I suggest posting a picture that shows your girls body but don't post a multiple nudes a day on your story this is just free FAP material for people. I recommend one soild post a day that way its enough

to tease them into messaging you asking about prices.

this method is working as of - 11/08/2018

I will update if this method stops working if that dose happen you can always revert back to posting pictures from your camera roll & memories.

[Posting a Live story \(with pictures \)](#)

How to interact with customers & Pricing.

by this time you will have account/accounts set up and you will have traffic coming to your snapchat now & you have posted a live story to let customers know what you selling, interacting with customers is big part of selling everyone has there own methods & you will eventually learn your own methods and what suits you best.

Upon posting your story people have seen your preview so they know what your selling so genuine buyers will usually message right away inquiring about your prices. now Pricing is set by you. but figure out what you want to sell for what prices, if your selling your premium to them for a set amount price then after they have paid tell them to add your 2nd account you have made just for premium customers. if you just selling them a set amount of pictures and videos then give them your prices for the X amount of what your offering.

Example - 10-15 pics and videos - \$20

Genuine buyers will Buy upon seeing the prices and will ask for the payment method you wish to accept AGC/Paypal. don't waste your time with people asking for Freebies there not going to buy, block and remove them and move onto other customers.

Summary

Snapchat is a great way to earn from ewhoring, be Genuine and don't scam your customer's a lot of people who will buy just a set amount of pictures&videos will return to buy more from you this helps keep your profits up, by scamming people your hurting the hole community as there buyers may get scammed by you there fore turning a lot of buyers away from ever buying again. there is plenty of customers for everyone by being legitimate in your sales you help yourself and the community also. I wrote this guide to help the new users coming to this section to guide them into how to start ewhoring on snapchat. we as a community need to help each other and keep it positive.

There is a lot of helpful members in this section who are willing to help myself included im always just a private message away, so don't be scared to reach out and ask for help. I hope this guide serves as a good start for new users and there journey into snapchat ewhoring.

Thank you for reading.

I'd just add at the traffic source. The easiest way I found to get adds is to run instagram accounts and do SFS. At SFS's you need to watch that you don't get "plague" on your accounts

plague - people who come to your account at SFS's just to ban your a*s off

Yeah i know Instagram accounts are a good traffic source & SFS i never did like doing them as your possibly bringing in someone elses time waster's, just made this to help new people out i did not want to add in the insta methods etc and confuse people more than what they already are.

Thank you ?

& when you send the video to yourself then save it to your camera roll & then import it by going to
your memories in your settings.

when you go back to your normal snap screen were you take a picture click the little box just below
it.

it should say " ALL / Stories / Camera roll "

the video you imported should be in the all section should be the first one there.

once you click that click the 3 little dots up the top right of the screen and click Edit snap .

make sure you scroll down and theres a scale tool there to eliminate the black bars at each side
make sure it fills the screen.

then there should be the text icon to add text. just add basic text to it.

should work i tested it there again and i was able to add text just fine buddy

Awesome post. I've been e-whoring for 3 years now , making lots of money. If you use an Iphone ,it's worth jailbreaking since you can use tweaks for Snapchat without getting banned. That will allow you to upload pics/vids from gallery , save pics and vids. This way you can just find girls who post daily on their snaps , who also have premium snaps and save their pics and vids and then just catfish. There are also sites where people leak premium shows , reddit for example , so you don't even have to subscribe to their premiums . Make a tumblr, post daily nudes there, promote your snapchat, make a kik and post on chatlog (lots of horny dudes there), you can also download tweaks for kik that allow you to send fake live pics, even if your phone is not jailbroken. There are tons of modded kik versions for Android (Picat, Lynx).

I read this awhile ago but I figured I should start posting again and I wanted to say thanks man I read this and I just ended up re-reading it. I'm still not really even started on this whole thing but between you and xArtemis you guys really are the greatest.

If you feel like it PM me I have a few questions that aren't super relevant or important otherwise I'd just ask here (i'm still rebuilding my account so I can't PM. Forgot my damn username from so many years ago :[)

Brand new to snap. How long after you open your snap do you say you're selling?

Signed up to pornflakes service yesterday. Had around 300 views on the two teaser pics I've snapped today.

So so I build it up more or just send a snap tonight saying selling HMU if you want to buy?

Few more q's/

Do you guys run two snaps or one? If two, how much do you charge for premium? And do you have rules for premium etc?

And lastly, how many pics or vids do you post a day?

Hey Banter, I have one question. What's the best way to take payments? With kik, I used AGC, and it was fine for me. But with snapchat I want to make it as automated as possible, to make use of the swipe up feature. What's your take on this?

TonyMont - September 10, 2018, 2:38 am

So snapchat is the way to go nowadays ha? back in the day it was kik that was rocking it lol :P

Remove/Block and move on 90% of them will just stay to lurk your story and never actually buy.

Hopefully i get it wrote soon alot of work involved in it and it will have ALOT of traffic methods with in it from basic to advanced levels.

just in 2 minds weather to make it Public or only for HF users still yet to decide this really but time will tell.

Just a shame this section is full has ungrateful people with in it who show no thanks for people like me who take time out of there day to give back.

but love the forum so i do it solely for that purpose.

Too bad Bluestacks and other emulators no longer work. My fingers are always killing me after too much typing on the phone.

Banter. - May 9, 2019, 8:19 am

Just to add a update, i may or may not write a full new guide Traffic & Snapchat.

this would be a free guide to everyone but i am still in two minds about it as it will take away from some of the mentors that sell within this section.

i know of most of them and they sell a great service so ill maybe rework the idea a little

limb3r - May 9, 2019, 11:10 pm

It should all be free anyway. It's a guide, not a pack.

Banter. - May 10, 2019, 4:40 am

(May 9, 2019 11:10 PM)limb3r Wrote: [\[CITE\]](#) It should all be free anyway. It's a guide, not a pack.

Guides yes, but what i was suggesting was writing something strongly based on Traffic but i know alot of the seller of mentoring services who run similar methods within there service so i do not want to deflect from there good mentoring services.

limb3r - May 10, 2019, 7:39 am

Whatever happened to being part of a community. Selling mentoring services only became a thing after the good guides here either got outdated or buried. and to be honest I find it distasteful.

But by all means, do what you will.

Banter. - May 10, 2019, 9:15 am

I disagree, i think if someone can offer a quality service that is tried and tested and proven to generate income then i think that is a valid and good service to be running, ewhoring now is all about traffic and your sources and giving how quickly public methods get saturated and over run with ewhores its not wrong to sell a private traffic method etc. i have did alot within the ewhore community i have helped alot of people myself and i have helped people earn \$1000 in a day

before, but i do have my limits on how much ill share for free. after all it took me a great deal of time to find sources that generate positive income consistently.
