Thread: [Bot farms? IS BOTTING DEAD?!](#)

Mr.Noodle - August 12, 2018, 3:29 am

Just getting back into RS. Any of you guys actively running a bot farm on OSRS?

I'm thinking about paying a scripter to make me a private script for a low requirement method. But since i've taken a break for a few years, i'm noticing a lot of the methods I knew are really saturated. If any of y'all can help me with this, shoot me a PM and we can work something out

Starting to think maybe I should just focus on just a few accounts and get higher gp/hr methods, but then i can't suicide bot :/

Looking for some fellow players to share or PM your botting TIPS and info (ex: how many accounts, methods, what skills you bot)

Right now i got 4 bots running, one is botting NMZ 24/7 almost 90 att n str
my other 3 bots are on a VPS suicide botting a buy from store/resell method that pulls about 150k an hour

Annoited - August 13, 2018, 6:19 pm

Nope, bot farms are still a thing.

Check out the relatively new OSRS bot, RSPeer. Really low ban rates, and good scripters.

greykoala - August 14, 2018, 9:46 am

Yep, i use RSPeer and havent gotten banned yet

savaged. - August 14, 2018, 10:43 am

what scripts u guys using? i'd invest if it was profitable

Ahh nice, I'll have to check them out

CheeseDooberTEMP - August 16, 2018, 2:39 pm

Everyones got 500\$+ bot managers and refuses to share them or sell them. It's not getting a script or finding a method it's getting one of these A1 bot managers that can do tut island and stuff. I'm lookin for one or if anyone wants to work on programming one together im down.

Charlie Sheen - August 17, 2018, 3:45 pm

I practically suicided with OSBot and no ban. Make sure to use premium scripts, any anti ban features the script may incorporate and come up with your own break times.

Anti-ban is literally nonexistent in scripts. Script developers just use that when advertising to make the person feel safer when using their script.

I run a blast furnace bot, and the twitch prime is really helping me out! I make around 150 to 200+ a day and around 1-2k a month, it really varies but I make decent money! I can help you setup a bot farm if you want

CheeseDooberTEMP - August 21, 2018, 12:45 am

There's no way you're running a vps, proxying each account, and maintaining enough accounts by hand to make that much.

Me and my friend run it, I use a vps but I use a vpn, I don't proxy every client I run and I use powerbots blast furnace script and I hand make all my accounts before botting them, they get banned in about 3-4 days

I just got banned on 2 accounts which really surprised me cause i had been doing it for so long. I believe it's because I had just made a level 3 acc and started doing it on there. I was making 700k an hour on the 2 accounts and my friend had 2 going on his acc that didnt get banned yet.

Right now i got 4 bots running, one is botting NMZ 24/7 almost 90 att n str my other 3 bots are on a VPS suicide botting a buy from store/resell method that pulls about 150k an hour. I made the bot with autoit which really limits what you are able to do.

Restart - August 27, 2018, 5:29 am

Hit me up if you want the best way I've got a script which i have 19m xp in the stat from and I've made hundreds of millions.

If you want to invest in that let me know.
