Yes the account is cracked but email change is straight forward as I have 95 of the answers to the questions EPIC ask.

Can you provide some pictures of the account? I'm interested in this but would like to see what I'm buying first. Also, EpicGames took approx. 1-2 weeks for a reply on email change, so whoever buys this should be aware it can take a bit.

So if you can provide some images, that would be greatly appreciated as I'd love to have a secondary account.
