Appraisal by [Theocritus](#)

Quote: Also, at the current price point I feel there is no reason not to try this out. You will want to have a \$20 investment or more for this method, but that is still not a lot at all. When it comes to the advertised "\$150 or more in profit a day", that is something I no doubt see as possible, but that will also depend on the site on that day, your luck, and your initial investment, betting amount, etc.....
But when it comes to the value here, the pricing of this is just so low that it's hard to not recommend at least giving it a go to see if it is something for you

Seems weird that he is selling a method, that uses the same "proof" as his thread. And he is literally a customer.

Like mentioned, it is not even the same.

o1nk - August 13, 2018, 11:56 am

Existence agrees it is not even the remotely the same product. He inadvertently reported my thread without confirming with us first.

It is a totally different method, but both are very high in profit. That is the only similarity

Reginald Kray - August 13, 2018, 12:22 pm

I can agree that what OP is saying is true.

Once I saw their thread I got extremely angry and posted both my thread and comments which I later closed/edited.

Reason for this was this thread:

As it's also another customer of mine. But I am tired with competing with anyone

The-Noob - August 13, 2018, 12:25 pm

Competing? You are competing against the person you bought your scripts from, not us.

Not an automated script. You are in control so you can stop at any point.

Usually when you are too greedy the AI will kick in. But we show you how to avoid the pitfalls. We also show you how we improve the win ratio from 76% to 91%

It's all down to the user and self discipline. You can double your deposit in 10 mins or even triple it,

but it's all about knowing when to step away and have a break.

Profit a day can be an easy \$100

The method is easy and simple and when you buy we will help you on how to increase your profit faster.

pd. I dont know NOTHING about cryptos at all. Just sent money through BTC two times and that's all my experience.

Please let me know

It involves betting but we give you a method that raises the win ratio from 76% to 91%

It is not an automated script so you are in control. Automated scripts will bust you out at some point and still run at 76% win ratio

No, none needed other than depositing the BTC so you at least need a wallet.

OFC - every method posted can lose you money, after all it is gambling, we just give you a method to help lower the chances of you losing and steadily increase profit.

(Aug 13, 2018 09:39 PM)Lycoso Wrote: [\[CITE\]](#) does it involve betting or poker or casino ? If i invest 50\$ in it , as you say i can earn some money. In some case, can i lose all the money as well?
Please let me know Well, it is betting but not on like horses or anything lol. Yes you can invest as low as \$20 and work up from there and yes you can always lose your money but like i mentioned above, we just help you to try and avoid that with our method.

If you play the method right and have some self discipline you will be fine, being greedy can cost you and it's easy to think you are not being greedy at times.

Theocritus you have a PM

Unlike most of the stuff sold on here we are quite happy to have the method appraised

The-Noob - August 14, 2018, 11:25 am

I have a new script coming out - has some great potential but still needs some testing.

My winnings from yesterday - Took a little bit of time and a good few breaks, this just goes to show it does work.

£182 profit.

o1nk - August 14, 2018, 11:14 pm

You know what?

We are tired of everyone charging €30 for scripts and methods

We have currently given Theocritus an appraisal copy, which nobody ever does

But The-Noob and I want to bring it to the masses and let everyone play it by just charging a nominal, less-risk, fee.

Giving everyone a big opportunity to make money.

So the price is now

€10

And as The-Noob said, there's a different one coming out

The-Noob - August 15, 2018, 10:07 am

Still going good, some profit to be had from this!

Josseppi - August 15, 2018, 10:23 am

So will buyers of this version also get the new one that's being tested? Or will they be 2 separate products?

Yeah, anything that we find will be shared amongst the people that bought.

o1nk - August 15, 2018, 10:50 am

Somebody came on today and made 4k without even trying, in just 3 hours. Only 15 mins of that was playing time!

Just think what he will be like after just 1 day

Even better, when he knows the system properly he'll smash it on his own

We are always on hand for mentoring

fearandloathing - August 15, 2018, 11:17 am

Have zero experience with crypto but went ahead and purchased. Excited to see profits.

devd - August 15, 2018, 11:36 am

total 6 minnutes is what I worked for it

great so far but of course there is risk as in every gambling

Incredible student gets incredible rewards

Theocritus - August 17, 2018, 2:27 pm

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [\[Autobuy\] \\$150 PER day EVERY day, without effort. Crypto Magic €10](#) by "o1nk"

This eBook includes 1 method and 4 pages.

The structure and grammar of the eBook is overall fine and there is not much to complain about with it.

Now for the method itself it is as clearly mentioned within crypto betting. You will be betting with this method and ideally you will earn a decent amount of money doing it. You do not only get the eBook for this method you are also added to a Discord server where you will get any help and information you need. The only gripe I have about this eBook, is that some very useful information relating to the method I only got after I had joined the Discord and was talking to OP about how to execute the method properly. This information that is quite valuable I would like to have added to the eBook so it will help people more right off the bat so they avoid making any mistakes. There was also a small issue with some wording in the eBook, but I believe this has already largely been taken care of.

Now to talk more about the method. Of course, as said, this is gambling and you may or may not lose your entire investment if you have a bad streak/make dumb decisions etc. of course, this method aims to have you be profitable both in the short term as well as long term if you follow the information given to you.

This method is said to have a 91% win rate when applied properly. Personally, I have been using this for a few days, and I have gone both into profit as well as loss. The thing with this method is that you need to check the site you are using every so often to see if it is a good time to bet. If you hit the "jackpot" then you should start using the method for all it's worth for the next 10 or so minutes. This is a very burst like method so to speak, as you will make all of your profit/losses within 15-30 minutes of the day. Most of the time you will not be playing due to the profitability etc etc.

Again, this is gambling and I cannot say that you are guaranteed to make money. Personally, I am still in plus with this, and I have yet to use it at the best time. It is no doubt something that I think can be very profitable if done correctly and strategically.

Also, at the current price point I feel there is no reason not to try this out. You will want to have a \$20 investment or more for this method, but that is still not a lot at all. When it comes to the advertised "\$150 or more in profit a day", that is something I no doubt see as possible, but that will also depend on the site on that day, your luck, and your initial investment, betting amount, etc.

Final Thoughts

To OP I would suggest you add in some more info into the eBook itself so it will be easier for new buyers to not make mistakes etc.

If you are considering buying this then it is not at all a bad product. I have yet to make a lot of \$ with this, but I see the potential is there. I will follow up with more earnings proof moving forward most likely as well. But when it comes to the value here, the pricing of this is just so low that it's hard to not recommend at least giving it a go to see if it is something for you.

o1nk - August 17, 2018, 3:16 pm

Unlike many other 'methods' on this forum, we have been open and honest about what our product is from the start.

Whereas many of the the other so-called 'methods' on this forum are so overpriced for what they actually are, we priced it where we thought it actually should be.

So much so, that we took Theocritus' appraisal invite with open arms. We had nothing to hide, nor do we lie about our product

We thank him for his honesty in his review

Yeah, I bought this and my win ratio is always around 80% for me, but I lose for random things. The method works well.

Can I get an invite to the Discord? That may help me understand the method better.
