Hi all,

My company is a genuine company from Taiwan/Hongkong dealing with online payment gateways for large amounts.

Currently we have a new project so my company is looking to hire expert/professional developers/programmers on APPs cracking for Android and IOS. Anybody with above mentioned set of skills/expertise are welcomed to enquire. Please leave down your various valid contacts or you may leave me a message if you are interested. Thank You

Web application hacking?
If so, I could be of service.
