Though I didn't bet, he provided step-by-step instructions on how to get started doing so. The provided documentation additionally provides descriptions of terms commonly used in the sports betting scene, terms that he utilizes during his predictions. Though his predictions were not 100% accurate, they were most definitely satisfying to say the least. His group chat is very active, where he's online most hours of the day to answer questions and provide you with continuous assistance and tips.

Overall satisfied with my experience and I wish everybody the best of luck when purchasing into this. You won't regret it!

First day he gave me the picks, I didn't do too well because I didn't pay attention to bankroll management. After a few days though, I was up a decent bit; this is the only sports betting service that actually got me results, rather than a loss!

Genuinely a nice dude as well.

this service. Although I'm unfamiliar with sports betting (and betting in general) and did not personally place real money, I'd have made great profits as the majority of Lukas' predictions are accurate! I plan to look further into this area and I'll definitely return as a paying customer. Thanks! (Sep 18, 2018 11:36 AM)?Paddy? Wrote: [\[CITE\]](#) I was given a 7 day trial got 5 wins and 2 loses in the past 2 days, will update with my results after the week ends. Thanks again to Lukas for the vouch copy

Edit: My vouch has ended today, I made \$145 in a week starting with around \$100 or so, meaning I doubled my money in a week, if you start with a larger amount you can easily make your \$100 a month fee back in a day or even 1 bet, this service is one of the best on this forum.

I could've made more but since they focus on US sports sometimes I would be sleeping and they would post a bet.

Thanks to Lukas for giving me a vouch copy.

(Sep 17, 2018 07:45 PM)Payne. Wrote: [\[CITE\]](#) I've taken a good look at the calls that are being offered. I can safely say they are worth the price. The service includes much more than just simple calls.

(Sep 26, 2018 10:48 AM)Zilliqa Wrote: [\[CITE\]](#) Recieved a one week vouch copy of this. Think I personally was a tiny bit down or just around break even which wasn't really a big issue at all for me as I did miss alot of bets due too the time zone difference and I wasn't up when alot of bets was getting posted at around 1-5am my time. However if every bet was placed I would of made profit. This service will more than likely be profitable in the long run so aslong as you don't do stupid \$1 bets forever it will be worth the investment. There was a few great underdog picks that came through which just shows they do know what they are doing with this betting service. Best of luck with sales!

(Dec 3, 2018 05:40 PM)Bismo Wrote: [\[CITE\]](#) From the two different betting services I've tried, this one is far superior. You're given guides on how to manage your money when betting, as well as various suggestions that can help your profit. Of course you can't win every game, but the win rates don't lie. I will say that the bets are posted pretty soon before the games start, so keeping your notifications on and making sure you're ready to bet helps a lot. Overall, there's a reason this service costs more than those cheap \$5/week services. It's because it's not some bot making automatic predictions, it's someone who understands sports making their own bets. If you're trying to get into betting, don't waste your time with a shitty cheap service. You'll eventually end up coming here like I did!

(Dec 3, 2018 11:45 PM)Rolex Gold Wrote: [\[CITE\]](#) Excellent service by a high quality individual. I HIGHLY recommend this to anyone who likes to get involved in sports betting. Crowning is a top-notch guy with a lot of experience in this field. There are few subscriptions that I would say are worth it, but this is one of them!

(Dec 4, 2018 11:26 PM)Bismo Wrote: [\[CITE\]](#) Posting my winnings from this Sunday, just started with \$150 and made \$30 off of it on Sunday alone.

There'd be even more green on there if it wasn't for a couple weird results like the GB/AZ and IND/JAX game

Gonna add \$600 or so into my bankroll, will update with results.

My personal win rate w/ this service is $78/123 = 63.41\%$

(Dec 10, 2018 04:13 PM)wallen2458 Wrote: [\[CITE\]](#) I have been using Crowning's betting service for 5 days now.

Since then my stats in betting has been as followed:

Total bets = 44

Wins = 31

Loss = 13

Win Percentage = 70.5%

He provides a high quality service which includes bank roll management and of course the bets. He is really a sophisticated sports better that provides his service at a cost that is well worth it. I have without a problem made my money back in these 5 days.

My total stats in money for these 5 days:

Investment = 100\$

Total now = 197\$

As my total is just moving up and the bets I put are a percentage of my total, my winnings will just exponentially increase with his service.

My total investment for his service was 29.99\$ for a week and as you can see I have made back 3x that during these 5 days by just blindly following his picks and predictions without a single clue what I am really doing.

The only con of his service is if you are from Europe and you work a normal job, since the games are played late for us Europeans it can be difficult to match the schedule since he analyzes the games as thoroughly as possible, it can be hard to stay up to get the bets in since some are released between 03:00-05:00 local time for me in Europe.

Other than that, he provides an excellent service which will make you money, the bigger your investment is, the more you will make. At this point I don't really see it as an investment either way since he hasn't even gone under 60% winrate any day. As long as you keep following him and don't make some stupid ragebet cause of a slow day, YOU WILL MAKE MONEY.

Best Regards

Nice to see another sports tipster but I got a question, why dont you build a spreadsheet before making this kind of thread? I mean showing a withdrawal doesnt really show that your winrate is 61%

See this as a tips from me that has been running a sportsbetting group for years in HF.

EDIT

I really like your thread design.

I spent about a week in Crowning's betting group chat, and I'm nothing less than pleased. Though I didn't bet, he provided step-by-step instructions on how to get started doing so. The provided documentation additionally provides descriptions of terms commonly used in the sports betting scene, terms that he utilizes during his predictions. Though his predictions were not 100% accurate, they were most definitely satisfying to say the least. His group chat is very active, where he's online most hours of the day to answer questions and provide you with continuous assistance and tips.

Overall satisfied with my experience and I wish everybody the best of luck when purchasing into this. You won't regret it!

Yes, however, we've had members make upwards of \$1.2k/day (the day we had a all win day). I usually make \$300 or so on a winning day. I put in about \$75/play, and bet against the odds. If you have any other questions, feel free to PM me or post below!

sorry, bro, but i am not allow to pm as of yet, my question was, the total of money i have to invest daily to make a return of 200 or 300 dollars a day in average, i need to know what kind of bankroll do I have to have in order to reach those numbers, because if i invest 75 a month in your services i need to know this info before i do step further. Bankroll policy for your system, on a monthly basis, so I can figure out how to proceed. also, which bookmakers should i use, or if i can do the bets in person at casinos etc., or if you use specific bookie for the odds and lines.

Well, I can't tell you that. You have to take into consideration of how many plays I give out to how much you bet on each play. My bankroll was \$500 when I started making \$100-200 a day, could be WAY more or less, just depends on the day. To make \$300 minimum, I'd say a MINIMUM of \$1000. I'll answer more questions about this off-site. I've PM'd you.

Well for bookies, It depends on whether you want to use BTC or your card/bank.

For BTC, Cloudbet or NitrogenSports.

If you want to use your card/bank to bet (I recommend this), bet365, 5Dimes, Pinnacle, etc.

You can do them in person, however, my odds are taken out of 5Dimes or Pinnacle.

Vouch for the man Crowning, I joined his group from another forum he's on. I've tried sports betting services offered by other people so many times, it was never this good. First day he gave me the picks, I didn't do too well because I didn't pay attention to bankroll management. After a few days though, I was up a decent bit; this is the only sports betting service that actually got me results, rather than a loss!

Genuinely a nice dude as well.

I've sent you a PM answering all of that. However, for MLB 3.00 odds is not a smart thing to be betting for. I, however, offer no less than 1.7x your money, usually over 2x (you can see my past results on this thread too). Most cappers to 1.3-1.5x your money most of the time to stay safe, but I believe under 1.7x is not worth putting your money on.

Thank you for your response!

I have to say, for the sports he offers, it's amazing... he helped me a bit today to get in the Tennis picks and they all have amazing odds. Though he doesn't win every single time, we're always in profit as the odds are pretty high. From the two different betting services I've tried, this one is far superior. You're given guides on how to manage your money when betting, as well as various suggestions that can help your profit. Of course you can't win every game, but the win rates don't lie. I will say that the bets are posted pretty soon before the games start, so keeping your notifications on and making sure you're ready to bet helps a lot. Overall, there's a reason this service costs more than those cheap \$5/week services. It's because it's not some bot making automatic predictions, it's someone who understands sports making their own bets. If you're trying to get into betting, don't waste your time with a shitty cheap service. You'll eventually end up coming here like I did!

(Dec 3, 2018 05:40 PM)Bismo Wrote: [\[CITE\]](#) From the two different betting services I've tried, this one is far superior. You're given guides on how to manage your money when betting, as well as various suggestions that can help your profit. Of course you can't win every game, but the win rates don't lie. I will say that the bets are posted pretty soon before the games start, so keeping your notifications on and making sure you're ready to bet helps a lot. Overall, there's a reason this service costs more than those cheap \$5/week services. It's because it's not some bot making automatic predictions, it's someone who understands sports making their own bets. If you're trying to get into betting, don't waste your time with a shitty cheap service. You'll eventually end up coming here like I did!

Thank you so much for your review. I'm glad you're enjoying it.

After all those hours of hard work, I love seeing happy customers!

Excellent service by a high quality individual. I HIGHLY recommend this to anyone who likes to get involved in sports betting. Crowning is a top-notch guy with a lot of experience in this field. There are few subscriptions that I would say are worth it, but this is one of them!

Posting my winnings from this Sunday, just started with \$150 and made \$30 off of it on Sunday alone.

There'd be even more green on there if it wasn't for a couple weird results like the GB/AZ and IND/JAX game

Glad to see you're making a lot of money! Sunday was an amazing day!

Today was another really good day, results are below.

Picks for Tuesday, December 4th, 2018:

NHL:

COL/PIT UNDER 6.5 at -124 (2 units) - Loss

A very sad loss for the MIN/VAN game, Canucks got very close many times during the third period to tie it up but couldn't quite get it there. Overall, it was a profitable day, a decent amount earned. Onto tomorrow!

Crowning and I were partners for about 4 months when he messaged me to partner up with him. I knew him from some of my old services so I was aware of his reliability, but he really set that in stone during my tenure with him. He's an overall great guy and an amazing partner. He was always willing to go out of his way to do whatever he believed would be best for us both, and never missed a day of calls. Although we had some scruffles, it only made our charisma that much stronger. Through university and all, this guy would take hours out of his day, sacrificing his schoolwork to provide his group members with no less than 10 daily calls. Although we did have some dry runs, we maintained a positive W/L ratio and I owe that to him. He's responsive, aware, hard-working and understanding. Buy into his group, because unlike most betting groups on HF, people are using calls from third party sites, whereas his research is done by himself and only himself.

Best of luck on your venture.

I have no doubts about his predictions at all at this point. I am into the second day of betting and I have now made my money back with a win percentage of 67%. I do realise it is not a big sample of bets yet, but we will see in the long run but I will keep reporting back for interested customers to see what they are joining.

I will keep using his service and report back with results.

Crowning is a really nice guy, he gives you advice on the bets, which are more risky and not. He will help you out with bankroll and how to be smart in his betting service. He really provides a whole system and not just some predictions.

I vouch for him.

I have been using Crowning's betting service for 5 days now.

Since then my stats in betting has been as followed:

Total bets = 44
Wins = 31
Loss = 13
Win Percentage = 70.5%

He provides a high quality service which includes bank roll management and of course the bets. He is really a sophisticated sports better that provides his service at a cost that is well worth it. I have without a problem made my money back in these 5 days.

My total stats in money for these 5 days:
Investment = 100\$
Total now = 197\$

As my total is just moving up and the bets I put are a percentage of my total, my winnings will just exponentially increase with his service.

My total investment for his service was 29.99\$ for a week and as you can see I have made back 3x that during these 5 days by just blindly following his picks and predictions without a single clue what I am really doing.

The only con of his service is if you are from Europe and you work a normal job, since the games are played late for us Europeans it can be difficult to match the schedule since he analyzes the games as thoroughly as possible, it can be hard to stay up to get the bets in since some are released between 03:00-05:00 local time for me in Europe.

Other than that, he provides an excellent service which will make you money, the bigger your investment is, the more you will make. At this point I don't really see it as an investment either way since he hasn't even gone under 60% winrate any day. As long as you keep following him and don't make some stupid ragebet cause of a slow day, **YOU WILL MAKE MONEY.**

Best Regards

Absolutely crazy today with a 88.8% win rate, almost a 90% win rate today. Canucks was easily ours, however they only decided to show up 3rd period. Not a big deal because EVERY other call was a WINNER!

CURRENT RUN: 189-117-7, 62% WIN RATE, +109.12U - WE HAVE OFFICIALLY SURPASSED THE 100 UNIT MARK. NOTHING MORE TO SAY.

Going to come back to renew my membership soon, looking into a month. This guy is the only member who is very transparent with his bets and actually makes people money lol

We had a very very minor loss today, which is fine as it happens!

Total: 7-7 | -1.94U | 50% Win Rate

Yesterday was actually a decent day. A lot of the bets we lost, especially the UEFA ones were quite close. It's okay because 1.94 units is almost NOTHING compared to what we won in the last 9 days.

We'll be bouncing back today!
