Interesting in paying with Paypal

I can now accept paypal as payment. Shoot me a pm if you need to pay in that way. Or reply to this thread if you cannot pm. Thanks!

Received a review copy of Archlights method. The method consists of having the ability to access SC through a separate application as well as sending live snaps/stories to your viewers.

The setup won't give you a headache. However, depending on whether you're using a laptop or desktop in the initial setup. You might have technical issues but its easily fixable with a simple reboot.

Overall this method does work, and with a little tweak from the 3rd party application, it will give you the results that you want. Most importantly this also requires patience. The application that you must use is dated, so you must bear that in mind. However, a simple force close> clearing cache will fix the issues you're having.

Overall rating 7/10
