Thread: [\[Official Group\] Samaritans | A Fresh Start Recruitment](#)

Pronouncer - August 14, 2018, 9:16 pm

We are here to help, to educate and to inform. We are the Samaritans of Hack Forums!

Our mission is to improve the skill sets and creativity of members throughout the Hack Forums. We encourage all users to allow their creativity to flow and grow through various activities. We are dedicated to educating, teaching, and training new and old members in areas they would like to improve in. Our members will use their knowledge to create high-quality tutorials and guides as well as inspire users to become more creative. These tutorials will range from basic knowledge to advanced concepts in order to be beneficial to the maximum number of users. Our members are required to have and maintain a professional and helpful attitude when interacting with any user on Hack Forums. We strive to better those around us, and while doing so, we are improving ourselves as well.

Computing Division:

The Computer Division covers a wide array of fields in computing, including but not limited to technical aspects such as hardware and software.

- [+]Computer Hardware
- [+]Computer Software
- [+]Networking and Routing
- [+]Remote Administration
- [+]Cryptography and Encryption
- [+]Malware Removal

Finance Division:

The finance division consists of discussions containing, but not limited to this list:

- [+]Business
- [+]Marketing
- [+]Promotion
- [+]E commerce
- [+]Economics
- [+]Entrepreneurship
- [+]Stocks
- [+]Investing
- [+]Crypto currency
- [+]Money Management

Graphics Division:

The Graphics Division is looking for individuals who are experienced artists and photo-shoppers. The division is focused on users who can draw, design, edit, and manipulate different pieces of art. These individuals must be creative and have a portfolio to back up their application.

The Graphics Division will be working with but not limited to the following.

- [+]Advertising & Branding
- [+]Illustrations
- [+]Drawing
- [+]Computer Graphics
- [+]Web Graphics
- [+]Animations
- [+]Video Editing
- [+]Font Creation
- [+]Photography

Social Division:

The Social Division is looking for individuals who can promote the activity of the Personal Life sector as well as those who can empathize with other members of the Hack Forums community. We will be focusing on helping and providing support to the community unlike no other group or individual can provide.

The Social Division is looking for professional and mature members that are knowledgeable in their respective field.

The Social Division will not only provide support to the Personal Life sector of Hack Forums, but we will also explore more specific topics such as psychological manipulation and social experiments.

The Social Division will cover including but not limited to:

- [+]Vices
- [+]Education Nation
- [+]Innuendo
- [+]Writer Tales
- [+]Health Wise
- [+]General Life
- [+]Manipulation
- [+]Ambitions
- [+]Social Experiments
- [+]Cars, Bikes and Motors

Our Tier System:

In our recent re-launch we have changed the way we rank members in our group. Upon each join you will be assigned your division, along with entry to Tier 1. As you progress as a member of the group we will be moving you up to tiers, call it a hierarchy if you must. Each Tier comes with its own benefits, including things like Labs, Playgrounds and Free Bonuses of value.

Unknown - August 14, 2018, 9:39 pm

Best of luck to all those who apply!

It'll be nice to see some fresh new faces in the group

DamienVC - August 14, 2018, 9:41 pm

Good luck to anyone who applies, I'm overseeing the Computing sector along with SysAdmin. Anyone who is interested can apply now.

ama - August 14, 2018, 9:48 pm

Interesting group with plenty of sectors.

Best of luck to you guys and future applicants!

Explain in detail your interest in the computing field:

Well, since I love and have a passion for computers. I got an irl job at a computer company building, repairing, and cleaning computers. I've been on a pc since I was 6 years old and learned lots over the years. I have quite the knowledge to repairs and builds.

What's past experience do you have to offer?:

I still work for a computer company and have for 2 years. Still working there currently, so my experience is constantly growing.

Are you interested in learning or helping others to learn more:

Yes, I so very much am. I'd love to share my knowledge with others.

Why do you want to Join Samaritans:

I want join because I feel like I have the proper knowledge. (Not saying anyone else on here doesn't) I feel like I'd get along with the others in Samaritans and maybe make some more friends!

Give us one primary reason on whose basis we should accept you:

I'm dedicated to hf and making a difference here in the community as well as sharing knowledge.

Any other disclosure you want to inform us of:

Nah.

Profile Link: <https://hackforums.net/member.php?action=profile&uid=691462>

Age: 21

Timezone: MST

Past Contributions: Nothing recent. Used to post a lot in PC build help threads, PC help threads and generally a lot of free giveaways before rep didn't matter anymore.

Explain in detail your interest in the computing field: Ex-computer science major, current CTO of a VR firm, current head of IT for a local insurance agency and a lot of other odds and ends computer work. Started my first official IT job when I was 15.

Whats past experience do you have to offer?: I am pretty good with computers and explaining computer related issues to people who know very little about the subject. I am not a god, but I do know a lot, or can figure it out over time.

Are you Interested in learning or helping others to learn more: You have to teach others to better teach yourself.

Why do you want to Join Samaritans: I'm being forced to apply. Not really I guess, I just haven't been in a group since Infamous and haven't given a shit about any other groups since.

Give us one primary reason on whose basis we should accept you: I am good with computers and this is the computer chapter of the group.

Any other disclosure you want to inform us of: No.

Age:

15 years old.

Past Contributions:

I hosted free thread design but I closed it because I don't have any time to cater it.

I also made a thread about malware and prevention under a group. My overall contribution was giving aide/help to everyone here that needs it.

Explain in detail your interest in the computing field:

My life focus in here. I do freelance programming and it helps my day to day living. Now I am currently working for a software solution company.

Whats past experience do you have to offer?:

With my past freelancing experience and my current job, I must say I can offer any service related to this field.

Are you Interested in learning or helping others to learn more:
Of course, I am.

Why do you want to Join Samaritans:

I want to be with everyone that has the same expertise as I am. I also love to help others and that's what Samaritans are into.

Give us one primary reason on whose basis we should accept you:
I'm a helpful guy and I know what I'm doing.

Any other disclosure you want to inform us of:
None.

Profile Link: <https://hackforums.net/member.php?action=profile&uid=33348>

Age: 23

Timezone: GMT +2

Past Contributions: In the very past lots of giveaways. Recent past involves the shopify method giveaway & l33t giveaway.

Provide A Summary Of Your Interest In Finance: I've been seriously interested in economics & finance since I was like 16 years old. I actually realized that I'm interested in investing, markets etc. What really got me hooked was the 08' financial crisis. One of my favorite subjects and case studies are related to that crisis.

Whats your experience like in Finance: I graduated university with GPA of 4.9 (Business Administration), I was an intern in a bank in the field of factoring for 3 months and worked as a stock broker for 1 year. I'm more of a freelancer type of person right now.

Are you Interested in learning more: I am.

Why Do you want to Join Samaritans: To get more knowledge, resources & widen my options. Furthermore - to help others in return.

Do you trade either stock or crypto: I do.

Give us 1 Reason to why we should accept you: I can benefit the Samatarians & they can benefit me. Win/Win

Anything Else You want us to Know: Nope.

Provide A Summary Of Your Interest In Finance:

- It all started with book "Rich Dad, Poor Dad" by Robert Kiyosaki, couple of years ago.
- I'm interested in making money from home 24/7. Building passive income.
- Most people don't understand how to manage finances or how to start building their passive empire. I would like to help them succeed.

Whats your experience like in Finance:

- I had little IT business for 10+years.
- Also had many online businesses and ways to earn money online
- Marketing, dropshipping, CPA, PPD, Social media, lead generation, funnels...

Are you Interested in learning more:

- Yes, always

Why Do you want to Join Samaritans:

- I believe knowledge should be free, and I know bunch of methods from making online money, to running real-life businesses.

Do you trade either stock or crypto:

- Investing in crypto, had experiance with binary options as well (got scammed by broker...)

Give us 1 Reason to why we should accept you:

- With my experience I'm sure I can help and educate some people here on HF.

I try to help people with both computer troubleshooting as programming, those are often posts. I'm busy making some guides as well which I will release soon enough.

Explain in detail your interest in the computing field:

I'm studying Information Engineering (uni) and currently doing my internship at a prominent IoT company. My main interest is in software architecture in both programming languages like React and Java but also in AWS and Azure. In my free time I spend a lot of time learning new languages

and reading about the newest technology.

Whats past experience do you have to offer?:Javascript, React, Node, Next

Java with popular frameworks (Hibernate etc)

Databases & PL/SQL in Oracle, Mongo, etc

IoT in AWS and Azure

HTML, CSS, Wordpress

Data Science, Jupyter Notebook only

Software patterns & architecture building

Non-IT related Running a hotel

Stock

Coffee

Are you Interested in learning or helping others to learn more:

I'm interested in both learning and teaching others. I would like to gain more knowledge in fields like security. On the other hands I would like to share my knowledge to help others.

Why do you want to Join Samaritans:

I think Samaritans is a group with a professional standard which I enjoy. I like to engage with other members about a variety of topics. Besides that I hope I can learn a fair bit in this group and share my view as well.

Give us one primary reason on whose basis we should accept you:

I think I can contribute a fair bit to this group and make it even better. I'm an active member who is both active in group SF as HF.

Any other disclosure you want to inform us of:

Besides sitting behind my computer I run a hotel and enjoy trading stock. I hope I can also contribute to others wanting to start a business or help with finance and stuff like that. If you have any questions regarding my application feel free to PM me.

Thanks in advance and good luck finding the right members.

Juffar - August 15, 2018, 6:10 am

First impression is that the group looks high quality, if I had the time this is definitely a group that I'd be applying to.

Computing Division Application

Username:savaged.

Profile Link:<https://hackforums.net/member.php?action=profile&uid=3967388>

Age:19

Timezone:GMT

Past Contributions: Basic OpSec guide, BTC Giveaway and active in the Botnets/RATs section helping newcomers and answering any questions.

Explain in detail your interest in the computing field: I've owned a computer since the age of 5 and grew up playing computer games with my dad, I experienced how fun they could be and then later on when he stopped using his I had more time to research whatever I wanted. I started looking into RATing and spreading methods when I was 10, back in the Dark Comet days and learned from there. I have always knew of HF with many friends using it however was scared to as I always heard it had a toxic community, although now I'm finally here I'm happy to say I disagree and I'm very excited to help spread my knowledge.

Whats past experience do you have to offer?: I have worked with botnets, RATs, miners and more for around 6 years now and can setup most tools out there, I have time and experience to offer anyone new to ensure they don't waste their time/money on tools that don't work or things they don't need. I've also setup websites, forums, shops & more, meaning I have experience in databases, different operating systems like Debian/CentOS and can troubleshoot on them and setup apps quite well for other members.

Are you Interested in learning or helping others to learn more: Certainly, I want to spread as much knowledge as I can so that we can all learn together and progress. I'm sure I have knowledge that will be useful and helpful to others, and I'm sure others have knowledge that will be useful and helpful to me, I plan to be a team player in the group and help anyone with their needs/requests to

the best of my ability.

Why do you want to Join Samaritans: I want to join a group to have a wider audience with my knowledge, currently I just browse the forum looking for users to help however if I'm in a group I can start projects and work on them with other group members or help them with theirs.

Give us one primary reason on whose basis we should accept you: I will help every member to the best of my ability, I'm not selfish and will spend hours of my own time and hard work ensuring the group member I'm helping is satisfied.

Any other disclosure you want to inform us of: I'm extremely active and will be online for hours daily. You will certainly see me being active. Oh, and I was your 500th rep :)

Provide A Summary Of Your Interest In Finance:

Ever since I was a little kid finance and money in general fascinated me. As I grew up I created many different business ventures to keep me busy and it overall became a hobby for me.

Whats your experience like in Finance:

I have tons of experience in the financial world. I started a business when I was 12 years old and have had multiple different business ventures since then. With the money I earned when I was young I heavily studied finance and made some good investments. I have supported myself financially since I was around 15 years old. Over the past couple years I have started to put much more focus and effort on my finances. I have made some good money from cryptocurrencies and I have also been holding onto a few blue chip stocks for a few years.

Are you Interested in learning more:

For sure! I would love to learn from others that are more knowledgeable than me as well as help others when I can!

Why Do you want to Join Samaritans:

I would like to join Samaritans because it is full of smart and HQ members. I think I would fit in well and it would be great to spread my knowledge throughout the group and learn from others as well!

Do you trade either stock or crypto:

I have a few stocks but I am more focused on crypto.

Give us 1 Reason to why we should accept you:

You should accept me because I could help and educate many users in the group!

Anything Else You want us to Know:

Pronouncer is one sexy motherfucker

Don Vito Corleone - August 15, 2018, 5:43 pm

Computing Division Application

Username: Don Vito Corleone

Profile Link: [Click Here](#)

Age: 20

Past Contributions: I've contributed mainly in the PHP section, here are a few links:

<https://hackforums.net/showthread.php?tid=5871631>

<https://hackforums.net/showthread.php?tid=5872036>

<https://hackforums.net/showthread.php?tid=5872074>

<https://hackforums.net/showthread.php?tid=5872203>

<https://hackforums.net/showthread.php?tid=5872258>

Explain in detail your interest in the computing field:

I'm a junior PHP dev and I've got knowledge in the following fields: HTML, CSS, and PHP. Many frameworks included (even though no framework will outlast pure language). In general, I've coded tools for my daily tasks outside of my job but currently, I'm working on some products that I'm looking to release here on HF.

Whats past experience do you have to offer?:

Like stated above, I'm a junior PHP dev and I've got experience with web development in general. I've also got quite a bit of experience with working out and having a healthy lifestyle in general as well as doing web graphics (Photoshop, a little bit of Illustrator).

Are you Interested in learning or helping others to learn more:

Yes I am, in the PHP section I respond to all people I can help. Even if that's redirecting the user to a previous question that has been asked and is very similar. Since I'm a junior dev I'm obviously interested in learning more, and I got quite a bit more to learn.

Why do you want to Join Samaritans:

This group has a professional and clean appearance, I like that. Interacting with people in those various areas should be fun as it usually happens at a closer level inside a group.

Give us one primary reason on whose basis we should accept you:

I'm visiting HF on a daily basis and I'm contributing mainly by helping others (haven't done giveaways yet). I'm eager to learn and to help, in various areas.

Any other disclosure you want to inform us of:

I would like to join the web graphics, health wise and vices divisions as well.

Pronouncer - August 16, 2018, 8:45 am

Past Contributions: Unfortunately, I haven't got any contributions on my account. However, I can assure you that I'm not a leech and I'm here to help others.

Explain in detail your interest in the computing field: I've been interested in computers since my childhood. I was always curious of how computers and Internet work. I've always kept experimenting and when I was 10, I've had my first Ubuntu installed by myself:) Nowadays I help my friends and family with all technological stuff like helping choosing their smartphones or virus removal.

Whats past experience do you have to offer?: I know how to code in .NET, some Python and create Wordpress or HTML/CSS websites using Bootstrap framework. Currently, I'm a beginner malware analyst and I'm running a Twitter and a YouTube channel about this topic:<-snap-> (not sure if posting links is allowed, if so, I'll delete)

Are you Interested in learning or helping others to learn more: I'll surely help others with their IT questions as long as I know the solution. Also, I'd have nothing against helping with malware removal ?

Why do you want to Join Samaritans: I'm looking for a group of people of similar interests as mine. Also, I love to help others.

Give us one primary reason on whose basis we should accept you: I'm a malware analyst and I think I'm a good candidate for the Computing Division

Any other disclosure you want to inform us of: No ?

Explain in detail your interest in the computing field: I'm strictly work on Linux being a malware developer over the years working with c programming and golang, plan to bring knowledge forth to this forums.

Whats past experience do you have to offer?: Nope

Are you Interested in learning or helping others to learn more: Yes of course.

Why do you want to Join Samaritans: Looks like a nice community group and would like to post representing a good group.

Give us one primary reason on whose basis we should accept you: Honestly couldn't think of anything for this.

Any other disclosure you want to inform us of: Nope

Raz Riverblade - August 17, 2018, 3:31 am

Social Division Application

Username: Raz Riverblade

Profile Link: <https://hackforums.net/member.php?action=profile&uid=1459917>

Age: 22

Timezone: GMT+1

Past Contributions: I've been in a ton of groups that did community projects, honestly can't remember them all. Void, Nexus, Brotherhood, "that one group led by Who Soup" (forgotten the name) and probably one or 2 others. Unfortunately those threads are near unfindable by now, the downside of being an old fag.

Are you Interested in forming bonds with others: Within the group? sure. But when it comes to my 'work' in the social sector it isn't a necessity, I'll explain more about that in the next question.

Why Do you want to Join Samaritans: The answer to this question is twofold:

First of all I'd like to share my experience in relationships, picking up and talking to girls en bdsm in the Innuendo section. I'm quite versed in all of those. The main goal is to encourage safety during bdsm, mental health in relationships en facilitate social interaction for introverts.

Besides that I'm also quite versed in body language and other ways of communication. I'd liek to use this knowledge to help transform basementdwellers into social butterflies. I can teach people how to do jobinterviews, how to talk to girls, how to ask for promotions, how to restore broken family ties etc.

Name a personal hero and why: I'm my own hero, because the transformation I underwent from asocial nolife to what I am today is a grand feat. If that doesn't count I'll go for John III Sobieski. The man save Europe.

What good do you think you can do for the community: Improve social and sexual behavior for all those who need it

Give us 1 Reason to why we should accept you: I believe that what I have to offer is unique and useful.

Anything Else You want us to Know: I've got literally over a hundred videos that you can't find anywhere else to help teach people social skills.

Provide A Summary Of Your Interest In Finance: stocks, insurances, banking, monetary policy

Whats your experience like in Finance: I have a bachelors degree in finances and insurances and a degree in business management. Currently finishing up a masters degree in Business management. (proof can be provided in PM if required)

Are you Interested in learning more: Seeing as i'm going for a masters degree i'd better be!

Why Do you want to Join Samaritans: To share what I know and learn what I don't yet know.

Do you trade either stock or crypto: Stock, but I don't daytrade, I invest.

Give us 1 Reason to why we should accept you: I have courses to share and can literally provide professional insight, seeing as I am a professional.

Anything Else You want us to Know: I've just been away from HF for 6months due to a series of internships in the finance and insurance industry.. one of the included a day in the Lloyds of London (Proof can be provided in PM)

Eastern Standard Time

Past Contributions:

I just like to help people or give advise wherever I can when I see someone struggling in life. Especially when it comes to the Health Wise section. Been working out since I was 14 and have been a personal trainer for 3 so I love helping people out with their fitness goals and journey. I have vast knowledge of drugs and narcotics as well so I pop into the vices section and see what people are asking in there, try to help people with what their taking and how much. All in all I just like to help people with any kind of problem they seem to be facing, from being depressed all the way to just being a better person and helping guide them(especially the younger generation of kids on here) to making good life choices and decisions.

Are you Interested in forming bonds with others:

Forming bonds and making new friends has always been a passion of mine, wether that be online or in real life I just like making connections with new people.

Why Do you want to Join Samaritans:

I want to join this group because it looks like it's very professional and respectable and it seems like you guys pick people that are generally helpful and experts in their proffession or what they can bring to the table. I wish I could do more or be more helpful in this group as far as joining other divisions but I know that I can be extremely helpful in the social aspect of this group.

Name a personal hero and why:

A personal hero I have would have to be Jonathon Davis, the lead singer of Korn. He has been through so much in his life, battling depression adn childhood abuse, but he rose above it and turned his pain into music and is know the frontman of one of the biggest metal bands in history.

What good do you think you can do for the community:

Like stated above I have a really good grasp on life and my mindset is clear and calm. I think I can help people with their problems based off of how I've had to live my life and basically raise myself all through my teens and I just want to help other people that feel like there's no one there for them.

Give us 1 Reason to why we should accept you:

I think you should accept me because you will not regret it and I know I can be a beneficial member of this team.

Anything Else You want us to Know:

Despite my username seeming dark, I am a very happy and extremely outgoing person!

savaged. - August 19, 2018, 7:25 am

Is anyone being invited? you said a few days ago that we'd be invited by now. still nothing

Pronouncer - August 19, 2018, 8:10 am

Past Contributions: I've been all over the site but mostly spend my time in SRPP now. Under a different username (Doxxie) I've hosted 2 membership upgrade contests and a free graphics thread.

Explain in detail your interest in the computing field: I'm a second-year Computer Science student. I'm particularly interested in VR and plan on creating a career in that field.

Whats past experience do you have to offer?: Can probably help with tutorials/questions related to C and C#/Java, WebDev FrontEnd, and Discrete Structures/Logical flow

Are you Interested in learning or helping others to learn more: Probably a bit of both.

Why do you want to Join Samaritans: Hoping to get something out of it myself from other more experienced members and help out those who are just getting into computing.

Give us one primary reason on whose basis we should accept you: I likely have something to offer to the group. Very Entrepreneurially motivated and wouldn't mind helping to get projects started

Any other disclosure you want to inform us of: I'd actually be fine with joining either the Finance or Social division as well. I'm minoring in Economics and have a very business-oriented mind. I'm also very active in the SRPP section and love to debate with other members.

Past Contributions: Created free graphics for various people. Free ewhoring pack.

Explain in detail your interest in the computing field: I love computers and have used them since a young boy. I started out on COD and B01 creating mod menus for friends and trolling xbox parties. After that, It started to snowball and I learned how to RAT , hack into protected WIFI's and detect malware.

Whats past experience do you have to offer?: Last year I graduated high school with a 4.3 GPA, taking a few honors and AP classes. This year I am going to the University of Iowa for computer science to better my learning for this. I have taken several classes online for coding and other things. I have also been mentored by several people.

Are you Interested in learning or helping others to learn more: Yes, I am definitely interested in learning more, I love learning.

Why do you want to Join Samaritans: I want to learn and grow and get a better understanding of computer related activities while, doing it with a good group of people.

Give us one primary reason on whose basis we should accept you: I believe I will be able to teach people about various topics and educate them about malware and security.

Any other disclosure you want to inform us of: No

Past Contributions: I used to be the most active (and helpful) user in the remote administration section. I posted many tutorials and help desks throughout that time. Within that time I helped literally thousands of users expand their knowledge of Remote Administration. I was given the "RAT Expert" award for my work in the section. I am one of ten members in the entire history of the site to be able to say this. I also hosted a few giveaways in which I gave away crypter, RAT, and VPN subscriptions. I think being in this group will be a great way to share what I have to offer. I took a hiatus from Hack Forums because I had a lot going on, but I am back now and working on more helpful threads.

Here are some threads that are good examples of my contribution:

Spoiler ([Click to View](#))

[RAT Expert | Best Help Desk | Answer All Questions | Team Viewer Support](#)

[Specialists | Best Beginners' Guide to Dark Comet | Very Detailed | Easy to Follow](#)

[Ultimate RAT Section Guide](#)

[RAT Expert | Port Forwarding Pit Stop! | Solve all Port Issues | DNS Setup | TV Help](#)

[Have RAT Questions? ASK ME! \[Experienced\] \[Free\]](#)

[Complete OSCelestial RAT Setup Guide](#)

Explain in detail your interest in the computing field: I am currently in college, majoring in Computer Science (Software Development). I have always enjoyed learning as much as I can about software. I just recently got into hardware and have been focused on that. No matter what I'm doing, it's almost all tech related. I am just starting my degree, but I am eager to learn and expand my understanding of topics such as networking, hardware, and encryption.

Whats past experience do you have to offer?: I saw that you are looking for users that specialize in Remote Administration. I think I would fill that role excellently. I worked with these tools for a number of years, learning more every step of the way. I have helped thousands (no, seriously) of users here on HF with setup and troubleshooting. My contributions to the section have always been quality and quite popular.

Are you Interested in learning or helping others to learn more: I am! Once you get the hang of a subject, nothing is more fun than teaching others about it! Most of my history here on Hack Forums has been filled with helping and teaching others. I want to continue that pattern and contribute as much as I can to the community.

Why do you want to Join Samaritans: I just got back to Hack Forums, and I want to get back into the swing of things. I looked around and I think this group is the best fit for me. I love the idea of a group dedicated to helping others learn and grow as community members. That is the "legacy" I'd like to leave for myself on this site. I want to be remembered as a helper.

Give us one primary reason on whose basis we should accept you: I am very dedicated to improving not only in my field, but in others as I mentioned earlier. Dedication means I will be putting a lot of effort into group activity while making quality threads to properly represent the group.

Any other disclosure you want to inform us of: Although I am in school, I make sure to give myself plenty of time for my passions. That means I will be very available and ready to help out.

Thank you for giving me the chance to apply to the group. I was in a few back in the day, and would love to come back into the scene strong as a proud member of Samaritans.
