Needing some inspiration for a tattoo. thinking around maybe a warrior/something else if that makes sense. the piece will be on my arm most likely

Post some pictures or just give me some imagination ?

I'm really into tattoos and I've always either gathered ideas using a pinterest board or using this app called tattoodo.

Also, if you have a specific artist in mind, if you just bring them a few ideas of what you're looking

for they can usually draw you something up within their style.

A dick on your cheek aimed at your mouth would be fantastic
