Thread: [Scam Report/Community Alert Against Staff Member/Admin](#)

8BallPoolKing - August 15, 2018, 10:54 am

Can we have Scam report/ Community alert against a staff member/admin??

Though its not an confirmed Scam/Community Alert as of now but circumstances are making me believe its going to be.

But i have never seen such kind of disputes before.

So i wanted to know making such Alerts/Reports allowed or not?

Yes, just make a regular scam report like against the normal user

Why wouldn't you be able to open a community alert/scam report against a staff member? I wouldn't think they're 'immune' to those types of things. ?

Vitani - August 15, 2018, 10:55 am

Yes. You can make a scam report against anyone, provided you have a contract to link to. Same goes for community alerts, but avoid stirring up unnessecary drama.

That being said, I'm sure anyone on staff would be happy to resolve any issue you might have if you just PM them.
