Wanna know how much I wanna gamble my bytes on HF. I've revamped my 10/10 promotional skills.

Happy to teach new people to hack if it increases forum activity, gives me 100 bytes and earns upgrades for the forum.

(honestly couldn't be bothered putting much effort in this video - I will make a proper one tomorrow, this one is more of a -see how it does)

I've messaged my friends to register on this forum. Addicted to the new slot machine.

I wouldn't go that far I reckon I can get passive bytes from people registering under my ref link. I did FB ads without a ref link a while back for a few days and got a lot of PMs from people joining. I might do it again.

I've only messaged the ones who are specialized in graphics. I told them that HF has marketplace for graphic work.

Fair enough, I want at least some quality coming to the forum.

I'm actually pretty curious if a video like that is going to work. Good luck op!

Eh good for the forum and good for me. Win/Win.

Prince™ - August 16, 2018, 3:07 am

Well, never been lucky with these kind of spin wheels or slot machines. So never going to give it a try. xD

"Delete All Alerts"

Do you get like 200+ per hour or something? Lol

Ah okay. Looking forward for the next stream!

Brill - August 16, 2018, 3:17 am

honestly, never thought hf would be struggling for activity
