Thread: [High Pay!! Seeking real hackers, no kiddies.](#)

Amasis - August 16, 2018, 10:23 am

Just like the tittle says.

I need someone for infiltrating a few inboxes. No script kiddies, no scammers and no time wasters.

No upfront payment what so ever!

You do the job and you get paid once there's proof that you're in.

I know 90% of the people who will read will NOT have the skill for this. So if by any chance a real hacker read this on HF, send me a pm.

Thanks for reading.

Will message you,

Already ran a test with 68 million passwords. So none have weak passwords. But you're welcome to try, payment is instant once I see you're in.
