Thread: [Requesting Lottery - Need R00t Member.](#)

Mr. Robot - August 19, 2018, 8:55 pm

I can't create them.

You must complete the communism of bytes on my behalf.

50% cut.

Everyone who contributes the cut will be spread out evenly.

= Everyone gets a chance to win the overall large pot, the more tickets one person buys the more chances they have - but everyone will get a split of bytes after.

Pot = 100,000 bytes.

50,000 goes to winner.

50,000 gets split to all those who entered - 100 people enter.
500 bytes per person.

Every body wins.

:)

It must be called 'Hammer and Sickle' or something memey.

Step 1. Create lottery.

Step 2. House takes like 50% or some shit of the pot.

Step 3. Winner takes 50% of the pot, other 50% of pot is split to all those who entered no matter how big/smaller their contribution/ticket price.

okay , you mean 50% for starter cut right ?

also am a root

I know communism is a hard concept to understand. It basically works by giving one person a lot of power then giving everyone else exactly the same no matter how much they contribute/don't contribute.

Pronouncer - August 19, 2018, 9:00 pm

Ahh i get it now, but where the fuck is anyone gonna get 100K bytes

Mr. Robot - August 19, 2018, 9:00 pm

okey , you mean 50% for starter cut right ?

also am a root
Yes here is an example.

Pot gets 100,000 bytes.

Winner takes 50,000 bytes.
Rest is split among all those who contributed to get that pot up equally.

(Aug 19, 2018 09:00 PM)Pronouncer Wrote: [\[CITE\]](#) Ahh i get it now, but where the fuck is anyone gonna get 100K bytes

By combining forces, referring members to the forum - thinking of doing some facebook ads.

yeh right , also keep in mind , their is 10% cut for house (mean we cant have access to 10% of bytes)

Math still checks out..

Hypothetically, if all these were for upgraded members only. We could get the entire forum on it.

Posts per day: 8,298.92

Threads per day: 815

That's like 10k bytes per day. Not including referral members and upgrades. We could get the pot to 1m within 30 days.

That would be 500k bytes to the winner, 500k bytes to say:

If we check how many people have been online in the last 6-7 days.

<https://hackforums.net/memberlist.php?sort=lastvisit&order=descending&perpage=40&page=500>

500 pages of 40 members per page.

2,000 members.

$500,000 / 2,000 = 250$ bytes each. Obviously a lot of those online in the last 7 days aren't going to contribute or can't so they get shunned. It quickly increases in value when we take that into account.

Punisher - August 19, 2018, 9:11 pm

Max cut percentage is only 25%, don't know if this'll work

Mr. Robot - August 19, 2018, 9:14 pm

MAX CUT IS ONLY 25% ?

Goddamit. Change strats quick.

Uh. REPORT OMNI FOR GOING AGAINST THE COMMUNISM GRAIN.

All shit talk aside, 25% would still work just not as nice.

Still should be done. The great communism byte exploration destination.
