Do we get an FTP account to download the torrents after completion?

(Aug 10, 2010 10:00 AM)Cyph0n Wrote: [\[CITE\]](#) Do we get an FTP account to download the torrents after completion?

You can just download it from the directory. HTTP style.

Cyph0n - August 10, 2010, 10:53 am

That's kind of troublesome if you're going to download scene releases.

Anyways, good luck selling.

Either some douche ddos'ed the seedbox (which is unlikely) or for some reason the seedbox was taken offline, as I can no longer connect to my spot...

Update:

Code ErrorMsg :

Mate the seedbox is being so slow just for doing stuff like loading the page the downloading and uploading is fine i geuss but Still last night i set it to download a file from the seedbox and the seedbox drops out and then when i wake up its not even done -,-

AcID © - August 17, 2010, 7:44 am

Is anyone else experinceing extreme slowest in the webpage?

Enable - August 17, 2010, 10:03 am

ya me to some time

Ryxa - August 17, 2010, 11:57 am

Slow speeds are generally normal..the web interface is poorly designed, and it's there for convenience.

It's also a seedbox...you're lucky it has other functions rather than just upload torrents + seed.

Th3SiNz - August 17, 2010, 9:16 pm

Can it download torrents + seed? That is what I am looking for so my torrents download quick.

Ryxa - August 17, 2010, 9:32 pm

Yup, that's the point of a seedbox.

AcID © - August 18, 2010, 2:47 am

yeah its working great now but mate it wont let me stop my torrents and delete them any ideas?

Bos™ - August 18, 2010, 3:33 am

Are u selling any more ?

If you accept LR PM me.

Also what is the seed speed. I mean what download speed will my clients get from the seed ?

Thank you !

You should calm down...

@All, the datacenter keeps firewalling people, probably because of a DDOS attack >__>
