Tested new workflow again. Found that it might be better than current. Also tested a GoPro I purchased for filming the speedart. Will post that some time too.

I especially love the grey background illustration, did you draw it by hand? Looking forward to the speedart!

Aye I did! Hope I can get video done this week some time.

Will try to get my brother to edit it for me since that's his thing :)

Looks neat, I'd however change the background but that's up to you!
