vucema - August 21, 2018, 5:22 pm

i'm having problem opening and playing media i receive on kik on Nox. Like, i can't open pics i received to full size, can't play videos i receid and can can't download anything i receice. Any idea why? it used to work fine till couple of weeks ago.

I thought my accounts got blocked so i tried the same accounts on bluestacks AND It works normal on bluestacks... So it's not the accounts it's something with nox + kik
....but bluestacks kinda sucks.

btw, thnks for this. you're very kind
