Thread: [Buddy List Changes](#)

Xerotic - August 21, 2018, 10:36 am

Recently we have updated the buddy list to add some more functionality to it. When you click on the "Buddies" link for the buddy list popup it will now show the users online location (as it would on their profile).

We also added two new search tools.

Find Buddy Threads: <https://hackforums.net/search.php?action=findbuddythreads>

Find Buddy Posts: <https://hackforums.net/search.php?action=findbuddyposts>

We still need to find a good place to put these links but the functionality for them exists. Enjoy.

iNuke - August 21, 2018, 10:39 am

Oh great, it adds a little bit of utility to the buddy list! Thanks for the work ?

Charger - August 21, 2018, 11:09 am

Makes the buddy features useful now. Pretty cool to search threads by certain people.

Deany - August 21, 2018, 11:10 am

Excellent. Now I can stalk all of you even better. ?

Biggy - August 21, 2018, 11:33 am

Definitely adds some spice to the buddy system. Great job Xero.

Omniscient - August 21, 2018, 11:34 am

I've always wanted to expand the buddy list features and options. I feel like MyBB uses it poorly but it has much more potential.

Mr. Robot - August 21, 2018, 11:47 am

Are you interested in adding the XMPP chat to the buddy function?

Xerotic - August 21, 2018, 11:48 am

We are interested in adding XMPP to the site in general. Lot's of ideas floating around.

Great that sounds fucking amazing.

Maybe some versus games for bytes via the system? It'd be so nice to have.

Vitani - August 21, 2018, 11:59 am

Awesome update! I never really used the buddy system a lot in the past, but this update changed

that. Keep it up!

(Aug 21, 2018 11:49 AM)Mr. Robot Wrote: [\[CITE\]](#) Maybe some versus games for bytes via the system? It'd be so nice to have.

Poker vs other users for bytes sounds perfect. I'd love to see that someday.
