Thank you so much <3 :D I love you so much for this you're an amazing person bless up

Hey! I'm just going to give it a try and see how well the effects and the pack is overall. I know it can sound weird, but sc6ut doesn't really get paid by doing video edits on IG so if i'll really like the pack and i'll use it constantly i might buy it to show him support.

Thanks for sharing again!

Thanks for keeping it professional. really like to see HQ posts like these!

i bought the pack myself just to help. though i have noticed that alot of the products included in the package dont really live up to quality. definitely feels like alot of cheap and ripped off presets and stuff for \$40

Hxrfz - September 15, 2018, 12:01 am

thanks, imma check this out :)

TheChosenHam - September 17, 2018, 12:17 pm
