NO!!!

I just bought my new pc for \$1200 the other day. I would've swooped this from you on the quick.

Good luck selling partner this is a steal!!

gl0ss - August 23, 2018, 5:54 pm

This is definitely a steal. Too bad I have trust issues with buying used PCs because of past experiences :(

Good luck, I think it should sell fast.

Arcdaddy - August 23, 2018, 9:55 pm

Decent price, any receipts/current warranty on any of the parts?

Lavish Living - August 23, 2018, 10:17 pm

If you will use ebay to protect us both i will take it off your hands. This will ensure you get your money and I get a WORKING product as advertised.

OP would lose 10% to eBay fees, and then PayPal fee's. + If he put this on eBay, it would sell for more than a grand.
