Thread: [9 years.. Feedback, thoughts, and more!](#)

RRRaptor - August 23, 2018, 7:24 am

It is currently the 24th of August, 2018 (Sydney time). Tomorrow will be my 9 year anniversary on HackForums.. This is so fucking crazy to think that I've been here for this long. Joining the forum at 10 years old (was breaking the rules lol) and going throughout all of highschool, all of my teenage years, I've always fallen back to HF no matter what. I've seen this forum in stages many of you have and will never see. I can really say I miss those days because truly no one gave a fuck, trolls were always here but back then there were some bad people that could do some serious damage. What I miss the most is a lot of the members that were apart of my HF life, members like:

[iBruteForce](#) (matured me the fuck up at a young age)

[The Rated R Superstar](#) (fellow Aussie, previous staff who helped me a lot)

[php](#) This users avatar has stayed the same ever since I first saw it. Lowkey he's the one that had taught me about titties... The good ol' days.

[VipVince](#) (gave me a tonne of women advice)

[Paradoxum](#) - MRT king.. Assisted me with removing malware from my PC years upon years ago.

[Xch4ng3](#) - Really respect you bro, so glad I got to speak to you a few days ago randomly on Bustabit. Good times reminiscing

[N3w_2_H@Ck1n™](#) - Had a falling out with you.. but if you ever read this I hope you're doing well in life bro.

[Qwazz](#) - Respected you for so many years, still do. I don't think you remember me but we had a really good conversation about life in general years ago. Hope everythings good buddy!

There's so many more to name but I really can't think of them at the top of my head now. This forum has literally seen me grow from a dipshit squeaker to someone who now has an extremely stable job and making a lot of money online. I really can't explain to you guys the knowledge this forum has brought me, it's set me up for life and I'm extremely grateful.

Let's move on to some feedback:

Omni:

I've seen thousands upon thousands of changes you've made to HF. I've never been that type of guy to make a "blaze of glory" thread, I've always supported you in any and all endeavours even from a young age until now. I've always been the type of member to let you do your thing and not constantly hassle you about projects and to push updates, so I just want you to chill out a little. You've been here for 11 years and you've never really had a proper break, only God knows how stressful your life has become. I've always respected everything about you and will continue to do so. I've followed your actions for almost a decade and you've truly taught me a lot, you wouldn't remember but PM's back in the day you were really helpful to me when I was having real bad times in real life. You're understanding, but very strict. You don't take shit from no one and don't let no cunt take that away from you. One thing I really respect about you is you asking for help in your Admin Plan thread. It takes guts to ask for help, and look what came out of that. You and Xerotic are the fucking dream-team. Since my time here I've never seen updates be pushed out to such an extent and to such quality. Always appreciate ya Jesse and always here if you need anything.

Xerotic:

I will always remember you as the dude who was real fucking smart. I was really overwhelmed back then and was really intimidated by you, and never really spoke to you until you became an Admin and I needed some assistance. You're a funny guy and I cannot thank you enough for the hard work and dedication you've put into this forum, since 2010 and even now. You and Omni are killing it, and the forum is only going to become bigger and better from here on out, and you're really inspiring a lot of people while doing so. Keep it up bro.

All staff:

You're all doing a great job.

Eagle I fucking love you. You've assisted me so much and I truly appreciate the fuck out of it. My favourite staff member and have been for a while.

Steve/Vitani, you two are doing an amazing job as the new recruits and you've always responded to my PM's within 5 minutes and continuously aid the forum with your knowledge and helpfulness.

Skorp I don't think I've ever spoken to you but you seem like a chill dude.

Community:

Chill the fuck out, honestly. Now this doesn't go out to all of you but there are a select few assholes like [this](#) who attempt to drag the name of HF into the ground and try to bring other members with them. People like this are cocks, guys. Don't be a Maximus. If you have feedback, there's ways of posting it. If you want to try to ruin the credibility and try to make the owner shut this forum down just because of your own opinions then you need to fuck right off.

A lot of you are real cunts out there and I had to learn that at a very young age. A lot of you are pushing and pressing the admins for updates and for this, and for that. Like kick the fuck back bro, shit happens in time. Stop adding stress to the never-ending workload for these guys. Without them there wouldn't be a community for you to make your money and to have a chat with people.

And for those true, selfish piece of shit mother fuckers who continuously harass people and bring people down I truly hope you reevaluate your lives. Your actions on here represent you as a person in the real world, and you're not someone I would want to ever hang around with or you'd have a broken jaw. Stop treating people like shit, this genuinely infuriates the fuck out of me. If you see a cunt honestly please report it. Whether it be in a group forum or the lounge, report that shit so they can be dealt with accordingly. A lot of the more reputable members here think they're top shit and to not name any names, you really aren't shit. Pixels will never define you and I hope you realise that one day. I still love the majority of you though. If you think you're someone I have a problem with, PM me and I'll let you know and we'll try to work shit out.

Now there are a lot of you out there who are really dope and chill, laid back and you are the people that I really love and what keeps bringing me back to HF.

To end this, I wouldn't trade anything in the world to not be a member of this forum. I'm so thankful I wanted to learn how to "hack" when I was 10 years old. I'm glad I found this place, not knowing it would be by home for almost a decade. Here's to another 9 years, love all you fuckers out there.

Damn, almost a whole decade.

Thanks for the feedback, hopefully you can write something next year when you've been here for a

decade. :)

You mentioned some classic old-timers. Most have moved on with their lives but they will be remembered fondly.

btw, did you take some Ecstasy before typing that?

I know right. Some of these people are serious psychos and I'm not sure they'll ever grow out of it. Some though are just simply immature and acting out.

Thanks for your thread btw. A better morning read than yesterdays. :)

Why would you assume I took Ecstasy? ?

Appreciate the response Omni, hoping for another 9 years of this shit.

Good to see a well-written feedback. What was your original username?

Decim - August 23, 2018, 10:34 am

Would be pretty funny if you got banned for breaking the age rule now, lmao.

But how does it feel to have been a part of HF for almost half of your life?

Vitani - August 23, 2018, 1:35 pm

I didn't realize you were an oldfag. ?

Must be great to have experienced so much around here! Happy 9 year anniversary on HF bud, I hope you stick around for a long time!

Oh God I would've been so mad!

It feels great. I wouldn't want it any other way. Taught me a lot about being social and it's made me who I am today.
