Big vouch for Razw, extremely cooperative and patient both qualities you'd be looking for in a designer.

You contacted me multiple times, I have you on discord, also it depends on how many slides/how complex you want it to be.

Message me on discord and we can talk there.

I'd recommend never to use this service, the design Razw came up with is abysmal. A fucking child could have done better.

Not a single creative flair in his body, and he didn't even spell the name of the logo I wanted right.

Not worth the time, money or hassle.

sincerely as I told you on skype, you are my first customer that is not pleased with me, and I don't care ;)

Yeah, you said it 1 time, you don't have to quote every maybe future client to tell him to not buy from me. If that work I made for you, ONLY YOU weren't happy with it, that doesn't mean every project is gonna be bad. So get off my thread, also, you are just a fucking pussy, I asked you multiple times if you want an edit and you kept trashing. Fuck off
