Myth - August 24, 2018, 2:49 pm

Looking to sell and physically ship these codes.

I run an online retail store and we get customer return xboxs/playstations all the time and most people include the codes unused.

I used to run through them all and they sell very fast on g2a for about \$3 each. I don't have the time to physically type these in and check them anymore so im looking for a buyer to buy them from me in bulk and I can ship them to you and you can do whatever with them.

Looking for .90c each.

Keep in mind some may not work. I will guarantee 90% will, if for some reason a large portion do not work we can work something out as I'm looking for a long term buyer as we get these often.
