No contract. Please edit the thread to a Community Alert, since they won't ban him here anyway and they will delete your post. Sorry for your loss.

Would you belive me if i invite you to White House ?

Cont[R]act, not contact. To have a deal dispute accepted here, you have to do the deal on HackForums using the contract system. The best you can do now is rename this thread to a Community alert to warn others. Not much can be done here, since the staff isn't involved in offsite (nulled) deals.

This is an invalid deal dispute since no contract has been added to the OP. Thread closed.
