Thread: [\[NOW HIRING\] C# & .NET Core Developers | Electron / WPF / WinForms Designers](#)

Lync - August 25, 2018, 5:55 pm

Greetings,

I am looking for both C# / .NET Core developers and Electron / WPF / WinForms Designers.

I run the following service: <https://hackforums.net/showthread.php?tid=5872726>

I am looking for a few individuals to recruit so that the services can be provided at a much higher completion rate.

Sometimes I receive too many inquiries and have to turn some down.

This is because it would not be completed in a timely manner due to other ongoing projects.

I am only looking for experienced individuals and won't be working with anyone that I don't see fit for the job.

Payment rates are entirely dependent on that of the customer/project.

You will be treated fairly as long as you can provide quality content.

Please DO NOT apply for any other programming languages as you will be declined.

Send me a PM if you are interested and we will go from there,

thank you

I can help your service. Let me know the % cut I will get.

I do C# and WinForms preferably

severos - August 26, 2018, 11:33 am

What are the available payment methods??

I do C# for breakfast, most of my work in .Net Core

Still looking for individuals to fill these positions, please PM me.

Elysixn - April 26, 2023, 2:51 am

Let me know if you still need a WPF developer.

I can't send you a DM since I just became a member /shrug
