Thread: [Fortnite Galaxy Skin \[PS4/XBOX/PC/MOBILE\] \[VOUCHED\]](#)

TomCruise - August 27, 2018, 4:05 am

Selling Fortnite Galaxy Skin on your own account.

{u}Price:[/u]
\$135 BTC

\$105 BTC FOR NEXT UB3R/R00T USER (MUST AGREE TO UPLOAD INGAME PROOF ONCE YOU GET IT AS WELL).

Price will increase \$15 after each purchase.

Can only do this for 3 more people (multiple devices).

Happy to use a middleman (you pay any potential fees), I will have to have your epic games account details to do this.

I'm doing this on my Note 9 and will have to play 3 games on your account and the skin will be processed on your account by Epic Games within 24-48 hours.

Can't do this for a lot of people so get it while you can, no refunds.

Happy to show proof that I have a Note 9 if necessary.

This works for all systems (PS4, Xbox One, PC, Nintendo Switch and mobile), once you get the skin it works on any system you play on.

PM me if interested.

Yeah, it'll be on your Epic Games account and you're able to use it on any system just like any other skin (but probably not on PS4 if you have Xbox One attached to your acc and vice versa).

MINTAN - August 28, 2018, 10:37 am

Isn't it just 1 per device?

Loot Lake - August 28, 2018, 11:04 am

Yeah, it should be only one per device unless you have a method/multiple devices.

TomCruise - August 29, 2018, 1:17 am

I'm online and available to take orders

Honestly speaking, \$135 is way too much for just a skin. Would pay maximum \$50 for this... Just saying...

Good for you, that isn't what I'm selling it at though.

I have multiple devices, can only do this for 3 more people hence the price increase.

Bet - August 29, 2018, 1:54 am

People are doing this for \$25 lol

Exactly what I said and he answered with "Good for you, that isn't what I'm selling it at though."

@Tom if you by any chance decrease the price, please let me know.

TomCruise - August 29, 2018, 6:01 am

Next ub3r/r00t to purchase will get it for \$105 BTC, must agree to upload ingame proof of the skin after you receive as a vouch.

Happy to use mm (you pay potential fees), Minimalist is best.

Remember I can only do this for 3 more people, have no more devices after.
