Thread: [\[BUG\]New Reply Bug \(B-Rating Update\)](#)

eXceptional - August 27, 2018, 5:39 am

Here's a small bug when using the Quick Reply Box. After a refresh, everything is back to normal.

Juffar - August 27, 2018, 5:56 am

It's been like that since B-rating was added to the profile.

int - August 27, 2018, 6:00 am

yeah, I saw that bug but I didn't have enough time to report it.

Its not very major though, so should be fixed soon

Vyxn - August 27, 2018, 7:20 am

It was also occurs everytime you reply to a thread.

Charger - August 27, 2018, 9:37 am

It's been said before by Xerotic; it's a query that is not needed and intentionally left out.

Just like how prestige was, it didn't show when you replied until you refreshed the page.

WageWolf - August 27, 2018, 9:59 am

This has been posted a million times, Xerotic said that it is designed that way to save server resources, however, it may be fixed, just due to the sheer amount of threads about this.

000 - August 27, 2018, 12:17 pm

This might help answer your question:

eXceptional - August 27, 2018, 10:08 pm

I wasn't aware that this bug has been reported earlier. Haven't been that active recently.
