Thread: [\[Release\]\[FREE\] VirusTotal Checker and Analyser #Trendy GUI and Super Fast API Check](#)

SpamHer0 - August 27, 2018, 1:37 pm

This is my SECOND PROGRAM to release in public. Dont forget to suggest and comment. That keeps me going.

COMMENT AND FEEDBACK

This is very valuable for me. I want to hear from all you guys about what improvements i can bring in. Also you can suggest me some custom bots which will be useful for public.

Today is a special day. After extensive coding, I am releasing VirusTotal Checker. This is coded by me exclusively for forum members. Take time to read the entire thread and get a feel of it.

ScreenShots!!

Virus Scan:-

This bot is coded from scratch and 100% clean. If there are any detections, they are mostly false positive or detection reads it as "bot" the programming which it is coded in. So its Safe to use as long as you download from this thread.

Still having any doubt?? Dont worry, if you are senior member, i am willing to share the source code and you can recompile and and see the result. Welcome.

Download Link:-

<https://goo.gl/4h7b5e>

To Do:-

1.Anything you suggest.

Comments and Feedback:-

Your valuable suggestions are necessary. Please comment here or inbox me. You can also PM me if you want a custom bot for free. I will do my best.

Upcoming Projects.

- 1.Email Account Generator/Creator (Yahoo,Outlook,Yandex,Protonmail,web.com ...etc)
- 2.Torrent Uploader and Spreader.(A bot that auto-upload torrents to popular torrent sites. Auto-spreading and Great features)

Cyclo_8 - November 13, 2018, 2:46 am

Does it summit the files?

mystyfly - November 14, 2018, 8:48 am

Can you put the link back pls :)

ZIKO000 - November 14, 2018, 12:18 pm

Link is dead you need to put in new link.

ExodiaWinfx - November 24, 2018, 5:35 am

Can you put the link back pls :)
