Thread: [Selling 5 mentorships to make you \\$11000 a month.](#)

Rezpy - August 27, 2018, 5:22 pm

5 people only. You must be willing to learn and follow instructions. It takes 45 days before you will see your first check so you have to be patient. Investment of \$200 is required. Only selling because I need \$2000 asap and am not at home to do this myself. This makes me on average \$10967 in CAD a month (calculated it so dont @ me) Mentorship will start on Sept 2nd.

First copy is \$300 SOLD
Second copy is \$350 SOLD
Third copy is \$425
Fourth copy is \$550
Fifth copy is \$700

PM me if you want to buy, if you're a bitch and wont do it afterwards then dont buy. Everything is done from behind a computer screen. None of your real life info is required and there are ways to make you anonymous.

This is BLACKHAT

Windows - August 27, 2018, 6:03 pm

Huge vouch for my boy Rezpy, he's a god at making money.

Bear - August 27, 2018, 6:15 pm

Do you have any legit proof of your earnings?

What are your payment methods? You will take PP?

Cameron - August 27, 2018, 6:19 pm

Are PP accounts needed for this? I'm interested.

eightz - August 27, 2018, 6:21 pm

Can I do it behind a mobile screen or is a desktop computer required?

Rezpy - August 27, 2018, 6:22 pm

Crypto or HSBC bank transfer. I can show proof of funds when I'm back from my trip on the first of Sept. But no point cuz I'll have the money I need access to by then and wont have the oppurtunity to spend it.

Armada - August 27, 2018, 6:23 pm

I spoke to Rezpy about this earlier.

It is 100% blackhat, but I can guarantee it will generate profit if you got the balls to do it.

(Aug 27, 2018 06:21 PM)eightz Wrote: [\[CITE\]](#) Can I do it behind a mobile screen or is a desktop computer required?

Desktop or laptop computer. You can use your phone if you like free buttsex in jail.

Skull-13 - August 27, 2018, 6:24 pm

Proof of earnings would be nice. Also I would like to know if this has to be with Cryptocurrency or not. I love Cryptocurrency but I would like to know how you process your payments if it's not with crypto.

You can be paid in Paypal or direct deposit to Green Dot reloadable prepaid cards. Monero aswell but you lose 5-10% of the money you made, I will give you my exchangers jabber.

Not hard to protect yourself when you do it. I'll give you a checklist of things to do everytime you start working and as long as you follow through with it. But if anyone is a lil bitch then please dont buy it.

Yea but ima give you a checklist of things you need to do before you start working and as long as you do that and you're not greedy you are good to go.

Will need some earning proof or something other than believing your word. The 45 day wait time is already too long of a wait after handing you \$300, would be nice if you could share anything of more substance.

I like free buttsex but not in jail.

I'll have to decline. Good luck with sales!

If that is too long then don't buy, I know it may seem like a hard concept to you but Rome wasn't built in a day. Also it is 45 days to receive first payment safely unless you want to get your money instantly followed by an arrest warrant.

I doubt anything on this forum or the internet is a hard concept for me, but anyways, good luck with sales. If you can provide any earning proof or any sort of proof other than your word, then hit me up.

Rezpy - August 27, 2018, 7:50 pm

Yea another heads up is that if you don't live in NA/EU you are gonna lose like 12-15% of funds trying to cash out (from what ive been told)

N?ght - August 27, 2018, 7:51 pm

Anything to do with refunding?

Lmfao. Sounds very interesting. Curious what it has to do with. Good luck with sales man

Nope, I can say this has nothing to do with refunding.

SuperiorUser - August 27, 2018, 8:33 pm

OP I hate to say it, but honestly just take out a loan 1) it saves time 2) keeps whatever you're doing safe 3) you don't have to get arrested.

If I was blackhat I probably would take this off you but I'm done with that world lmao.

for sure good luck though and from the last time we have talked you seem pretty trusted.

Personal Opinion though

Would I buy: No because of the blackhat status

Would I vouch: Probably not because you are offering a 11k dollar per month for 300 bucks

Are you trusted: for sure you're a good guy from what I have seen

Should you continue to do this: not worth the time in jail

either way good luck op

you're probably on a pc or laptop

why not do it yourself

Didn't you read? He said that he wouldn't be usually selling this, but he needs 2k\$ asap and this method takes time for the money to be gained.

Good luck with sales OP. Sounds interesting

Buy and you get to know whatever you need to know about it

Money back guarantee if you follow all instructions and don't make at least \$4000 CAD

?tonti? - August 29, 2018, 12:22 pm

Does it involve anything related to drugs/guns/darkweb? If you say its very risky on phone, I guess it should be some really illegal stuff, probably desktop to get a lot of protection.

I doubt it involves anything you listed :P no point in asking honestly because if op says anything it will tell everybody what he's doing

Hilarious if this is Heart's card method

(Sep 10, 2018 09:28 PM)Broxigar Wrote: [\[CITE\]](#) Hilarious if this is Heart's card method

Nope, doesn't have to do with credit cards.

Rezpy - December 5, 2019, 2:54 am

Have a new similar method, but I need to see if it actually pays out properly. Will probably only make around \$3000~ USD/month with around 1-2 hours of work everyday (I will confirm earnings once I test it out more). If anyone is interested PM me, I'm not sure what price range to put it around though

tvercetti - December 5, 2019, 3:02 am

Does this work worldwide?

Also, when you say blackhat what kind of risk is associated with this?
