Thought I'd just take a minute to surprise those of you who had no idea what this woman is capable of.

She turned herself into a commercial puppet, but she does have some serious talent.

No hate but what are you getting from complaining about her here?

I respect your opinion, it's the internet, but think about the statement you've made, "isn't it a shame" you ask.

She can do whatever the hell she wants, same as with everyone on this planet, however, mind your own business and you do you, don't waste your time concentrating on someone who doesn't even know you exist.

I see that a lot with people today, like they have their shit together, believe me, if you'd focus your time, mental energy and everything in yourself, you'd be much more happier than shitposting about Miley Cyrus changing.

OP tho - just accept it, we are humans, you, me and Miley fucking Cyrus and her sister, we change, we evolve, like it or not.

I suppose it is great to get a perspective like this, I appreciate it!

In my opinion, it just seems that she discarded what she could have become in order to please the masses.

Anyway, what you have said has enlightened me!

Thank you!

Haha I suppose, man.

I'm a little drunk, was listening to her backyard sessions and thought I'd post about it.

Didn't realise that this was proper old news to everybody or I wouldn't have posted it! ?

People missed the point.

I'm not hating on her. I'm trying to display to the (obviously) younger demographic here that she has another side that may have not been considered.

I was drunk when I posted the thread and I was a little emotional, so yes, perhaps it did come across as militant arrogance.

Apologies if that is the way I have made people feel about the subject. It was not my intention.
