Yo,

I have a guide that cost \$5,000 USD. It's closed registration so even if you had \$5000 to buy the guide, you can't.

I followed the guide and I am doing super successful with amazon. (Keep note I started around 40 days ago and I am already doing about 10k a month revenue :))

This guide follows every single last thing, you don't need to have any knowledge on anything. My partner and I spent 4-5 hours a day for 2 months working on it. Now it's all auto pilot. To start this up it costed us around \$8,000 USD.

Requirements:

Time to work on it 1-6 hours a day, more time the better

Patients

Starter funds, 4-15k. (THE MORE YOU INVEST IN THE BEGINNING THE MORE YOU MAKE)
Live in the USA

This is starting an amazon business. It takes time, you can easily turn this into a million dollar a year business (revenue) after time and growth.

This is hours and hours of videos you watch that guides you step by step..

If you have any questions simply contact me.

Buying this COMES with my FULL support. If you need help any time of the day I am here to mentor you along with the videos.

I have a skype group chat and the goal here is to fill it up with like minded individuals and have everyone selling really well on amazon and to discuss and talk about methods of bettering our products. We simply share what works, and what doesn't.

Only selling 3 copies for \$500 each. Btc/Paypal/Venmo/Chase Pay.
