Thread: [Adolf Hitler and the holocaust was fake](#)

Was watching a documentary today about the holocaust. Some people literally think it was faked however their evidence is like 1:1000. What do you guys think? I personally believe it happened and think you are crazy if you think otherwise.

So jokes apart this is something which get's quite a bad rep sometimes. No one seems to be ready to believe an horrific true incident but they are willing to believe on Russian sleep experiments and slender man. I guess that's the flaw some people have but you can't blame anyone for their opinions though

That's true but my thing is that there is literally almost no evidence to support this aside for some pictures of men wearing a gay hitler beard in 1975

I kinda have a hunch that the numbers got pumped afterwards. Now ofcourse it did happen but 6million is a lot of people from one single ethnicity.

They didn't find much of the books and the camp per camp numbers are guesses.

I might be wrong ofcourse.

Anyway everyone knows the holocaust happened.

There is plenty of proof-

Lack of an excuse for people that stupid.

From conjoining different twins, torturing children to burning whole families. There is proof in the pudding, not to mention all of those peoples shoes are still around. I used to not really care, I still don't- but after experiencing the aftermath and memorials, and standing on the beach where an invasion happened it; I can say that it's something to learn from. not to disregard.

It all goes back to our true ethics..

Okay sorry to say this mate but i can't post links or images . But here are some solid proofs to prove that it has really happened:

[www\(dot\)en\(dot\)wikipedia\(dot\)org/wiki/Holocaust_denial](http://www.en.wikipedia.org/wiki/Holocaust_denial)

But like what I said people are going to believe what they want to. No evidence is enough for them

The Holocaust really happened. I've visited Prague this year and we drove to the concentration camp and the ghetto of Theresienstadt. It is quit impressive. I want to visit Auschwitz too. People who deny The Holocaust are kinda retarded.
