Thread: [DASHE SHOPIFY BOT \(START RESELLING HYPE SHOES AND CLOTHING!\) \(HOW I MADE THOUSANDS!\)](#)

Flashback™ - August 29, 2018, 6:44 pm

Selling Dashe shopify bot! If you are interested in making money reselling hype shoes and clothes, a bot is a must have. Dashe is one of the best bots as it works very well on Shopify sites such as Kith, Undeclared, etc. (These sites get all hype releases!). I have used this bot for around a year and have been able to make thousands of dollars off reselling yeezys, off white nikes, and more copped using Dashe. Also, Dashe will be having a massive revamp soon which will make it even better. I am only selling because I no longer have time to do sneaker stuff thanks to school. I am only selling ONE copy and that includes setup and help from me.

Dashe's Website: <http://dashe.io>

Dashe's Twitter: <http://twitter.com/dashe>

PRICE: \$350

Please feel free to PM me with any questions.
