Thread: [MAJOR Cash Cow Method \(xx.xxx earnings daily\)](#)

plugg - August 30, 2018, 5:11 pm

Whats up guys! Fairly new to the HF, do not have a lot of coding knowledge.

I am looking for people who can help me with a big project (Easy high xx.xxx \$ each day). I do not require any capital them, i am going to sort everything out.

The things i need are:

- Someone that is able to provide a bot that is able to comment @'s from a social media scraper. (For example 1 comment per second that mentions 5 people).
- Someone with thousands of proxies that can mass create thousands of ig accounts. Which can then be logged into for use with the method.
- Someone that is able to crack social media accounts. (These accounts do not have big followings, under 10k).

Shoot me a dm if you are able to provide something like this and if you cant PM just comment your contact below as i cant pm yet. Please do not waste my time. ?

I can crack like 70% of the HF community can.

Whats in it for me tho?
