Thread: [\[Bug\] Squares instead of Icons](#)

Expliciet Limited - August 30, 2018, 5:45 pm

I noticed this bug before on other area's of the website (always icon related) so figured to report it since it didn't get fixed yet so omni is most likely unaware of this issue.

Not sure if this is the proper way to report bugs tho.

I'm currently using the "Opera" browser if that matters.

Make sure you have a fresh copy of that file ^

I just adjusted some CSS so the cached versions will be no good.

Thanks mate, the icons look alot better lol, hard refreshed my cache which solved it.

Eagle 95 - August 31, 2018, 8:05 am

For future reference, if you see that something isn't working press CTRL + F5 couple of times. That's a "hard" refresh.

iNuke - September 1, 2018, 2:33 pm

Oh thank youuuu! Finally I see the icons!

Perfect ?

Which CSS page should I refresh for this one please?
