Contract id =#7262

We made a deal of \$50 over messenger and processed trade with contract system.
Right after the first trade he requested for more funds to get exchanged.

After this 2 payments he requested again for \$100

So now total is \$50 + \$50 + \$100 = \$200

Raised chargeback and told me it will be fixed within 2 days since his pp got limited.
Today 4 days has passed and till now proper reply, he is just waiting for the Paypal's deadline of chargebacks.

I'll take actions against him within 12 hours from now.
Friendly warning to you, Handle it in mature way.

seems like a stolen paypal tbh
hope he gets banned though
