Thread: [Encore Generic| FUD | No More Generic Detection | CHEAPEST THING EVER](#)

breaker1911 - August 31, 2018, 8:37 pm

I know many guy here having trouble with the Generic detection from many crypter and sometimes the icon generator of it never work, so i'm here to offer you a help in making FUD protected output, avoid AV making false positive detection on your application.

please contact me follow these information :

Skype : Breaker9691

Jabber : Breaker@xmpp.ltd

*You won't get any support or discount or whatever if you contact imposter and get scammed.

Before

After

and if you're interesting on HighQuality Miner, please check my [Encore Miner](#) always FUD with new subscription !

Got some question, if this product was to remove generic detection, why on the new scan, the BitcoinMiner detection was also removed?
