Dope Design.

I like the glowing effect with the smoke, even though there should be a policy at the bottom / or some infos at the bottom, because there is too much space.

But damnn good design ?

850\$ for this is much though, isn't it? :o

Looks good but too much of the same style used for the titles/text and stuff, try adding a bit more variation after the header and it will look even better.

Sexy, I love the glowing orange and dark blue. Beautiful. 10/10

I love how you made that logo but I don't like the arrangement of the information below.

Overall, you made a great job here.

Sexy af, only if the small text weren't so pixelated, try increasing the size a bit for everything?

Looks ok but the font and stuff doesn't seem easy to read.
