Thread: [Share Button on Posts](#)

Xerotic - September 1, 2018, 10:50 pm

You are now able to share HF posts directly from the post itself. Next to the post number you will see the share icon.

When clicked you are presented with a few options such as:

Copy Link

Cite Post (format the post title as a link using MyCode)

Share post on FaceBook

Share URL on Twitter

Share URL on Google+

You will need to get the latest CSS of these files to be sure everything is loaded correctly:

<https://hackforums.net/jscripsts/thread.js?ver=1801>

<https://hackforums.net/cache/themes/theme12/response.css>

<https://hackforums.net/cache/themes/theme12/showthread.css>

Reload those or CTRL + F5 when viewing a thread.

The modal popup should look like this:

vagabond - September 1, 2018, 11:01 pm

neato, makin them seo moves

Eagle 95 - September 1, 2018, 11:07 pm

It looks nice, good job guys.

Originalkillit - September 1, 2018, 11:45 pm

Make it visible buddy since its grey no one can find share icon

Great work ?

B0Trun - September 1, 2018, 11:50 pm

Really a great initiative taken to improve the site more , Love it

Evanescent - September 1, 2018, 11:55 pm

Looks neat. Good job BOT. I wonder how much you work per day in hours ?

HOMODIN - September 1, 2018, 11:55 pm

That's a really nice update, however I guess that people who don't have accounts here won't still be

able to read the tread/posts?

Vyxn - September 1, 2018, 11:56 pm

Will this preview the content of that post when shared on a social media?

GloryToBe - September 2, 2018, 12:06 am

Looks nice but you would need an HF account to view the post.

Omniscient - September 2, 2018, 12:11 am

(Sep 1, 2018 11:56 PM)Vyxn Wrote: [\[CITE\]](#) Will this preview the content of that post when shared on a social media?

Try it and see what it does. We are working also to improve it if members have suggestions.

Mr. Robot - September 2, 2018, 1:26 am

The real question is, does it setup a referral link attached to either the original thread author or the post directly linked.

Ninja™ - September 2, 2018, 1:32 am

Just checked and it links to the post.

TinyFox - September 2, 2018, 1:33 am

Nice work i already saw it.

Armada - September 2, 2018, 1:52 am

Ya'll bitching about SEO and here we finally see something that makes a MAJOR difference!.

Loving it... stop making me phat my Mc Donalds! lol

Please never mention that shitty 'restaurant' on this amazing site again. You will face my wrath.

Armada - September 2, 2018, 2:00 am

Dont make my Mc Whopper your ass.. ?

On a more important note.

I played a bit, I think some tweaks could do, like FB shares for example, FB wants to share an image, when you do it now, its a blank thin to the thread.

Add the HF header or something maybe? ?

Decided to make this twitter even though I don't get referrals.

<https://twitter.com/HackforumsTuts>

Will just be linking tutorials on there I find useful/could help others.

Biggy - September 2, 2018, 6:41 am

Nice update Xerotic. Neat feature.

s1nister - September 2, 2018, 6:43 am

Nice update guys, though Can you guys add a like button on each post??

It will help to lower the amount of people negging reps just for a single post.

Also it might help to sort posts and comments on the basis of number of likes it receives? Can you please add it??

Riggs - September 2, 2018, 6:46 am

This is awesome. Are shared posts open to public view, or will visitors still need to register first?

Yin Yang - September 2, 2018, 7:11 pm

Nice add on it'll be helpful for sure

Charger - September 2, 2018, 7:26 pm

We want the entire world to have registered accounts on HF.

PerfectStorm - September 4, 2018, 12:11 am

Looks like a pretty good feature, nice going

WageWolf - September 4, 2018, 6:06 am

Did not notice it until you pointed it out, pretty dark button. Good SEO moves though. :)
