Personally, I don't like the background.

Sry, I meant your old one.
New one is better.

It's, personally, not my style, but ok :)

Sorry but it's not very good at all. Maybe stick to coding or whatever you do ;)

Really nice for a beginner but you can definitely play around and improve, good luck!

Imo it really doesn't look that great. It looks a bit low quality like it's from 2009 or something. The writing is cool though. This isn't meant to make you feel bad about your work it is just my honest opinion. Work hard and you'll improve, this is a solid start!

It does the trick I guess, not overly appealing or professional though.

Looks like it's straight from 2003..

I like it! :D
