Thread: [VBNET Google Authenticator?](#)

OffCode - September 2, 2018, 3:04 am

Hello, Anyone know is it possible use google authenticator on my application?

Cød3ing - September 2, 2018, 3:07 am

You might want to start by referencing TOTP instead of google authenticator lol.

GenericSkid - September 2, 2018, 4:21 am

Are you looking to do something like this? <https://github.com/winauth/winauth>
