Nice design bro, I like the minimalist design you chose.

Though didn't exactly like the color combination , the black and blue didn't look great together.

It's very difficult to read with the lack of contrast. Did you design the graphics in the background?

yep

I'd change the colour of the text as it's pretty hard to read. Other than that it's cool but a bit too dark overall, and the earth is too bright to match the background.

I think it would've looked better if you added the same affect that you had for the blue. around the red making it match the other side but the other color would be cool.

In my opinion, it's terrible.  
Bad colour choice, odd layout and hard to read.  
Just being honest.

**HOMODIN** - September 3, 2018, 8:45 am

TLDR; Hard to read (the tos is way too small/pixly) and heavy/confusing for the eyes.

I like the overall design but like most have mentioned. That font color is way to dark. Hard to see with the background design.
