i dont know how to code but just looking at it i feel like ive hacked cia mainframe

lookin dope ? ?

int - September 3, 2018, 11:53 am

haha i wrote my thread before you!!!!!!
gotem!!!!!!!!!!!!

yeah new logo looks nice, i like it

Store - September 3, 2018, 11:53 am

Yes, I totally agree. Just refreshed and try to find a thread mentioning it. 100% better than the old one. I hope this stays.

but did you know that dog time goes faster so TECHNICALLY i post my thread before u in doge universe ? ? NICE try at discrediting me, ""buddy""

go close ur thread immediately. this main thread now

Rubentastic - September 3, 2018, 11:56 am

But did you already see what happens when you move your mouse over the logo? hehe

I like it ?

i checked before and it said local cuz i was checking wat i wanted to call it but i just ended up saying logo

or is there some secret i dont know about?????

omni disappointment u shouldve made it so it says ur ip

YES im leaking omnis ip directly here

127.0.0.1 there, enjoy woof

Onireves - September 3, 2018, 12:00 pm

That is actually a printed circuit board design

Kill Joy - September 3, 2018, 12:02 pm

I saw that it changed but it didn't register in my brain that it was the new logo until I saw this thread.

Guess it fits in perfectly then.

same i thought i was trippin' then i checked another of the 100 hackforums tabs i have open rn and i saw the old logo so i was like,,,,,,,,,,,,,

some things wrong i can feel it

still waiting for the doge logo edition

N1ghtm4re - September 3, 2018, 12:17 pm

I don't like the green but the logo itself is pretty decent.

isu - September 3, 2018, 12:25 pm

It doesn't fit the purple theme imo :/

Nuworld - September 3, 2018, 12:25 pm

I like the new logo design but not sure about the green.

Green and purple together?

green and purple = top hacker colors

perfection

Omniscient - September 3, 2018, 12:55 pm

Altered it more trying to get it just right. Sometimes you have to have the logo on the site for a few minutes or even a few days before you know how you want to change it.

Like is it too purple, not enough purple, too green or too bright...maybe adding some other element.

Right now I took away the Hacker Dude and our motto. I think it looks a lot cleaner and more mature for the site.

I want the purple to be obvious but not overbearing in the logo.

RIP hacker dude

i liked him i felt a connection to him even though i never knew him he was my friend always with me when i roamed the forum

and lets not forget mr robots tatoo of mr hacker dude ?

FryPan - September 3, 2018, 1:07 pm

sorry, dogecoin haters' opinion doesnt matter

if u look closely and turn on ur brain ull realize its simply amazing, just looking at it gives you the "hack forums" feeling even if u dont read what it spells out

and if a brand achieves that feeling then theyre succesfull

CPA Exposé - September 3, 2018, 1:39 pm

Not a fan of this one, but it will probably grow on me. I actually already forgot what the old logo is lol

lol - September 3, 2018, 1:40 pm

I actually love it. It would look sexier with transparent background.

Mons - September 3, 2018, 2:11 pm

It does indeed have a certain appeal.

Gustav. - September 3, 2018, 2:31 pm

Whoever made that new logo is a god

thanks

Omniscient - September 3, 2018, 2:43 pm

(Sep 3, 2018 02:10 PM)M0HX Wrote: [\[CITE\]](#) +1 for transparent background.

Do you mean removing the purple inside of it? I think that's needed because it adds a color link to the forum design. Otherwise the green is overbearing too.

Juffar - September 3, 2018, 2:45 pm

It looks good now, a little more purple and it will look perfect.

LaFerrari - September 3, 2018, 2:59 pm

I personally liked the old logo much better but this one isn't bad

Omniscient - September 3, 2018, 3:58 pm

Quote: Nope only the grey background in the image, so that If you want to change the logo header to another color the logo.gif/png won't affect it.

That's intentional to prevent you from screwing up the HF experience we work so hard on. Same goes for awards, ficons, and group images. None of those are transparent for that reason. It forces our background color.

Vince - September 3, 2018, 5:07 pm

All these newphags complaining about purple and green and have no idea what the theme was on this site years ago lol

Just hush up. They know what they are doing.

Doesn't mean they can't have an opinion about a current design. This is the new Hackforums. Move on from the past. All of this work Omni and team is doing is not to represent the old HF.

Side note: New design is already growing on me. Adapted to it better on desktop ?

scam. - September 3, 2018, 6:21 pm

Personally I'm not a fan. It looks a little out of place. Concept is good though I guess.

Think its just because the green. I'm not a massive fan of the cartoonish feel either I suppose.

Different strokes for different folks though

r u complaining about the green color when ur username and stars are green?? ok buddy and dont forget green is matrix color so checkmated the green will stay and its awesome period

Yin Yang - September 3, 2018, 7:44 pm

Looks like the matrix to me ha

muzzy. - September 3, 2018, 8:02 pm

Yea it's so refreshing to have something new up there, I really like it. I think maybe it might be like a tiny bit too bright? I'm not sure, I think I'm just not quite fully adjusted to it yet.

Either way it's a real nice change and I think it contrasts with Mobale really well.

BTB™ - September 3, 2018, 8:06 pm

The logo itself is good.

But frankly, looking a bit odd man out with rest of the HF theme.

No offense, my personal opinion.

The more i browse the forum the more I'm liking this new logo.

However, Maybe have the purple stand out a bit more.

It's not like I don't like green it just feels like theres a lil too much on that. Feels somewhat out of place.

Although the more I look at it the more normal it seems.

Typically you're not staring at the logo. It should be benign actually. If you're on HF a lot do you really even need to see a logo?

I agree and disagree.

For regular members it won't matter what it is

But for people visiting the site for the first time I'd say it's fairly important.

However I think what threw me off was just the change. It's growing on me.

Having the colors switched might look quite good though. Seeing as purple is the main color throughout the theme.

Overall I still believe it is a big improvement on the last one.

SIM-964740 - September 4, 2018, 3:11 am

The alt text also though lol

WageWolf - September 4, 2018, 6:08 am

Yeah, I feel like a proper hacker as well, heck yeah! ?

Almonds - September 4, 2018, 5:24 pm

What a gift we have been given.

Correct and i agree.

If one spends all there time looking at forum colors/logo?
So be it, There's more important things to be concerned about within this forum.
Updates/Upgrades and new additions added weekly is whats important for Hack Forums.

As Omni has said (It should be benign actually.)

Myself, I never even noticed the new logo until i read this thread.

However? The new system works for it's time and looks great.
Though within a week or two we will have all forgotten about this and the new norm will be in place.

mrnapolean1 - September 5, 2018, 4:38 pm

Shit I didn't even notice. Appears that the new logo has dropped the infamous HF slogan "Packets, Punks, and Posts"

NBut none the less I think it fits the site good.

xitoxic - September 7, 2018, 11:45 am

Not a fan of this one, but change is the way of life.

I miss that little dude and the slogan

Lovely? - September 7, 2018, 11:51 am

I like it a lot aswell and the new template kinda seem nostalgic for me for some reason.
