Thread: [Theocritus' Ebook Review for "Double Your Money" by Wraxu](#)

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [==> DOUBLE YOUR MONEY RIGHT NOW <== | TRULY QUALITY GUIDE](#) by "wraxu"

This eBook consists of 1 main method and 9 pages.

The grammar and structure of this eBook seem quite good to me with few errors and a nice layout overall.

Also included are many HQ screenshots and visual aids to help you understand the process with even less difficulty.

As mentioned there is 1 main method included in this eBook, but there are multiple ways of making money using the same main method. Though it will say too much if I expose the exact site you are going to use, as many people have sold methods based on this site before, I will simply say it is one of those well-known sites where you trade one currency for another currency to make money.

OP provides a very nice tutorial on each and every step of the process, as well as providing multiple different options to make your money all explained equally well no matter which one you will prefer to mainly use yourself. As said you will be using one currency to trade into another currency which you will then be able to trade on various sites for a solid % profit. In this eBook OP mainly focuses on the fact that you should get an ROI of at least 1.5x all the way up to 2.5x or somewhere in that vicinity. OP also explains how to avoid scams on the site, how to find the right suppliers for the right exchanges etc.

This base method has been around for forever but I do think OP has added many extra avenues you can make money with, multiple of which are not at all obvious at first sight. Also, with getting OP's experience when buying this, you should hopefully be almost fully guarded against any ill attempted scams you may encounter along the way. As said, though the base method here is very far from revolutionary it would seem to be fairly easy to make money with when done right regardless. This is also a process that is very easy overall, especially if you have been in the game a while like myself. I can no doubt see you making easy \$ with this in a short amount of time if you know what you are doing.

In addition to all the value, tips and tricks that OP has included in this guide, he seems to also offer a full 1 on 1 mentoring which I would say no doubt ups the value a fair bit. Being able to get this experience in a 1 on 1 space while being talked through it as well as having all the questions you might have answered and get you all the help you need in the beginning should really make you not have any excuse of not being able to make any money with this.

When it comes to how much you can make on this I would say it would be a breeze making a minimum of \$25 a day without doing more or less anything even related to work using this step by step guide. Of course, you can also be able to make hundreds without much effort as well, it all

depends on how much time you care to put in. though not much is required either way.

The price tag of \$100 on this can be seen as premium, which I will not really disagree with. But as I have said, having this eBook be as solid and clean as it is, that value can no doubt be argued without too many angry voices being against it. Especially with this personal mentorship the value proposition of this is much higher than many other eBooks currently on the market.

## Final Thoughts

To OP I don't have much to complain about to you. There is the odd error here or there but nothing much to fuss about. As said in your eBook I do hope you add more details and updates to this to just increase that value until it reaches the heavens.

If you are in the market for something that will make you a good amount of money without too much work at all, then this is definitely in the running for one of the best options. The price tag is as said a little premium, and if you only had \$110 to invest total then this is not a method that will really generate you money from scratch, but will rapidly multiply the money you already have instead. I would recommend \$100 or more to use on this to start to really get the value going right away. I can see you making profits the first day without many issues as well.

I will update this review when I have some proof of profits from this method coming later this week most likely.
